

## ENTHUSIASM RUNS HIGH AT OPENING MEETING BY HAMMOND AT RED WING

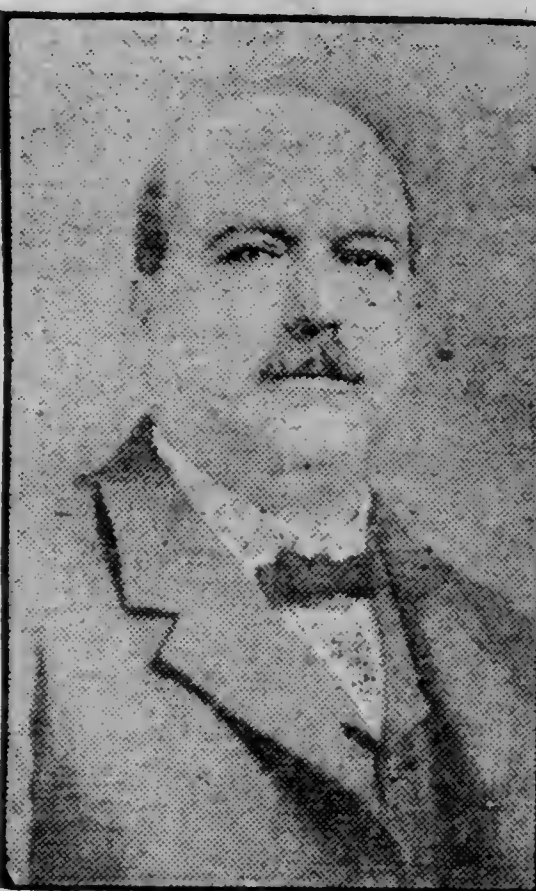

### THOUSANDS UNABLE TO ENTER HALL

Says He Will Sign County Option Bill, If One Passes.

Favors Plan of State Economy and Efficiency Commission.

Urges Clearing and Draining of the State's Swamp Lands.

STARTS HIS CAMPAIGN FOR THE GOVERNORSHIP

WINFIELD SCOTT HAMMOND.

#### HAMMOND'S VIEWS.

Governor and other state officers should be elected on non-partisan ballots. Even now the governor must be a non-partisan. Local option, preferable in larger cities, but people of the county as a whole might well be given right to vote as a unit on liquor question outside these cities. He will sign a county option bill, if passed by the legislature. We must reduce state's expenditures and lessen the people's burden of excessive taxation. The legislature should carry into effect the recommendations of the economy and efficiency commission. State should clear and drain its swamp lands and build roads so as to attract settlers. Urges necessity and value of reforestation and forest fire prevention. Commends the short ballot. Says Mr. Lee has indicted his own party by saying the brewery has defrauded candidates, the officers themselves and legislation. Pays tribute to the high character, broad intelligence and intense patriotism of President Wilson and his constant and successful warfare against special privilege.

Red Wing, Minn., Sept. 29.—(Special to The Herald).—Political enthusiasm, unsurpassed in Minnesota since the days of John A. Johnson, was seen here last night when Winfield S. Hammond, Democratic candidate for governor, made the opening address of his campaign. The opening address, which lasted about an hour, was held in the hall of the Red Wing hotel, which was crowded to its capacity. Mr. Hammond, who is 57 years of age, is a native of New York and has lived in Minnesota since 1900. He was elected to the Minnesota legislature in 1908 and served two terms. He was defeated for the governorship in 1912. He is now a member of the Minnesota senate.

Mr. Hammond's speech was well received by the audience. He urged the passage of the county option bill, the economy and efficiency commission, and the clearing and draining of the state's swamp lands. He also commended the short ballot and the patriotism of President Wilson.

After his speech, Mr. Hammond was introduced to the audience by the local committee. He was then escorted to the hotel, where he was met by a large number of friends. He will continue his campaign tomorrow night in Duluth.

## MEN SUFFER IN TRENCHES

Germans Occupy Miles of Underground Galleries on the Aisne.

Hundreds of Thousands Penned There as in Buried City.

London, Sept. 29.—A picture of the sufferings of the German troops, cramped in miles of underground trenches and galleries along the Aisne river, is given by the Paris correspondent of the Daily Mail. He says that the autumnal weather, with its warm sunshine in the daytime, damp nights and bitterly cold dawns, is extremely trying to the men who are compelled to spend their time in the trenches.

If the men step from their trenches to the level ground they do so at the risk of their lives. At night the chances of an unexpected attack from the enemy are very great.

## THREE MORE PEACE TREATIES UNDER WAY

Greece, Russia and Sweden to Sign Agreements With U. S.

Washington, Sept. 29.—Three more of Secretary Bryan's peace commission treaties are on the way to consummation. One with Greece will be signed soon; the Russian ambassador will confer with Mr. Bryan tomorrow over the details of another, and still another between the United States and Sweden is being prepared.

## NEW YORK SUBWAY, SURFACE AND "L" CARS IN SMASHUP

Eighteen Persons Are Injured and Two May Not Survive.

Fire Follows Underground Crash—Traffic Congestion Worst Ever Seen.

New York, Sept. 29.—Three collisions of subway and surface cars sent eighteen persons, more than half of them women, to hospitals today. Two of the injured were said to be mortally hurt.

Four persons were injured in a crash between subway trains at One Hundred and Second street and Lexington avenue. The subway was blocked and tens of thousands of persons were delayed on their way to work.

Collision on Bridge. Six persons were the victims of a collision between surface cars in the center of the One Hundred and Forty-fourth street bridge over the Harlem river. One car that had been struck, deserted by crew and passengers and not held by its brakes, then shot down the incline of the bridge and crushed.

## SURPLUS OF RELIEF OFFERED BELGIANS

British Government Has to Decline Some of the Aid.

London, Sept. 29.—England has come to the relief of the stricken Belgian refugees with such spontaneous magnanimity that the refugees' committee has been forced to decline many of the flood of offers of shelter.

The authority for this statement is Lord Gladstone, former governor general of South Africa, who is now a leader in the committee work.

Six thousand Belgians have already been placed in private homes, while 3,000 are in the London depots awaiting distribution. Five hundred came in yesterday and some 5,000 others are scattered in lodging and boarding houses for whose keep the government has assumed the responsibility.

May Reopen Dardanelles. London, Sept. 29. & A. D.—A dispatch from Constantinople to the Reuters Telegram company says there is good reason to believe that the Dardanelles, ordered closed yesterday, will be reopened to navigation in two or three days.

## CLOSE RACE IN REPUBLICAN PRIMARY IN NEW YORK FOR SENATORIAL NOMINATION

### ANTWERP MAY BE BESIEGED

Move Is Indicated By Activity of the German Troops.

City's Defenses, Just Modernized, Among the Strongest Known.

Rotterdam, Sept. 29, via London.—The activity along the Belgian frontier indicates that the Germans are planning for a siege of Antwerp within a few days. More than 25,000 men, German naval reserves, have been brought from the North sea towns of Kiel and Hamburg to Brussels and are being held in readiness to serve on an improvised German fleet should Antwerp and Ostend be taken.

As a direct result of this move, the Dutch authorities along the Scheldt have increased their watchfulness, for during a siege of Antwerp, England might like to send reinforcements through the Dutch neutrality, while on the other hand, a German victory would bring danger of an attempt on the part of Germany to use the mouth of the Scheldt as a base from which to attack the Netherlands.

## SEPTEMBER COLD RECORDS BROKEN

Frost From Ohio Through the East and to New England.

Washington, Sept. 29.—Cold weather records for September were broken in a number of localities last night and this morning. Frost was reported from the Middle Atlantic and New England states and the Upper Ohio valley. The lowest temperatures of record for September were recorded at Richmond, Va., where it was 34 deg., Hartford, Conn., 35 deg., and Northfield, Vt., 20 deg.

Predictions for rising temperature tonight and Wednesday are made for those districts.

Wadsworth and Calder Are Nearly Even on First Returns.

Sulzer Crowds Davenport for Place on Bull Moose Ticket.

New York, Sept. 29.—Whether James W. Wadsworth, Jr., or William M. Calder is the Republican nominee for the United States senate from New York, and Frederick M. Davenport is the Progressive gubernatorial nominee, probably will not be known until all the upstate vote cast at the primaries yesterday is compiled.

Returns which came in slowly this forenoon showed Wadsworth leading Calder by 25,050 in 1,371 districts outside of New York city.

David Jayne Hill, the third man in the race, is hopelessly distanced.

Bull Moose Vote Light. Although the Progressives cast an extremely light vote, they have an interesting fight on. Belated returns from 1,487 districts outside of New York city increased Davenport's lead over Sulzer to 1,169.

Hennessey for the Democratic nomination for governor, with ease. The estimate at Tammany Hall, that the governor will be elected, is high.

## ALL ABOARD CUTTER TAHOMA ARE SAFE

Word From Alaska Is Received at Washington.

Washington, Sept. 29.—Commandant Bertholf of the revenue cutter service today received word from Unalakleet, B. C., that the cutter Tahoma, which was wrecked on an Alaskan reef, Sept. 21, have been found safe.

There were eighty-three persons aboard the Tahoma when she struck. The steamer Cordova picked up sixty and the remaining twenty-three were supposed to have made a landing on one of the numerous islands. The message received was given to the cutter service by Commander Bertholf, but it was believed the remaining survivors were found either by the Cordova or the survey ship Patterson, both of which were detached from their ordinary courses to search the Arctic.

## "KAISER'S SON SLAIN BY GERMAN BULLET"

PRINCE ADALBERT.

London, Sept. 29.—The Ghent correspondent of the Daily News sends with reserve the report that a Belgian doctor from Brussels says that Prince Adalbert, the German emperor's third son, has died in a hospital in Brussels.

Dr. Lepage, King Albert's physician, according to this report, was ordered to hold an autopsy in the presence of two German doctors, and it was found that the prince had been killed by a German bullet. In other autopsies on German officers it was found they also had died from a similar cause.

On Sept. 13, an Ostend dispatch by way of London reported the death in a hospital at Brussels of Crown Prince Frederick William, Prince Adalbert of Prussia and Prince Carl of Wurtemberg. Prince Adalbert has served chiefly in the German navy, and was navigation officer on the German cruiser Coeln.

## WILSON WILL NOT SPEAK IN NEW YORK

Will Help Glynn and Gerard Otherwise in Campaign.

Washington, Sept. 29.—While President Wilson will take no active part in the New York political campaign, officials close to the White House said today that he would give every means of support, short of speaking, to Governor Glynn and other Democrats nominated in yesterday's primaries. It was said at the White House that the president had taken no part in the primary fight, and some time ago called Ambassador Gerard, the Democratic senatorial candidate, assuring him of his neutrality.

## THE FELLOW IN THE MIDDLE GETS SQUEEZED NO MATTER WHAT HAPPENS.

## TANIC STRUGGLE IS IN ITS EIGHTEENTH DAY

Allies Claim Gains, But These Are Denied By Berlin—Losses on Both Sides Are Colossal.

Zeppelin Activities Now Terrifying Reality—Russians Gain in Hungary—Eastern News Scarce.

London, Sept. 29, 1:25 p. m.—The eighteenth day of the battle of the Aisne thus far has brought no decisive results, but all indications continue to point to an approaching end of the Homeric struggle. Hand-to-hand fighting now raging with such fury is bound, it is generally held, to decide the issue.

Meanwhile the fog which the French official report yesterday announced had prevented operations in the Woerwe district, covers metaphorically the rest of the long battle line.

All that the public is permitted to know from the allied side is that so far the British and French armies have held their grip on their positions and have consistently thrown back the masses of Germans who have been bravely and incessantly hurled on them in an effort to break through the human barrier.

In Berlin it is asserted that there has been no change in the situation, and the claim of the allies, that the scales have turned slightly in their favor, is stoutly denied.

Losses Colossal. The losses of the opposing armies in the last few days of the fierce combat have been colossal. Even the official reports contain a gruesome picture of thousands of dead and wounded lying in the fire-swept zone between the two armies.

Zeppelins No Joke. Gibes no longer are heard at the inactivity of the Zeppelin balloons, which have been omnipresent. These unwelcome visitors created consternation yesterday at Bialystok to the southwest of Grodno, some fifty miles inside of the Russian frontier. This driftable apparently was more fortunate in getting away than was the sister ship, which was shot down in the neighborhood of Warsaw the day before.

Hungarian Advancement. It seems now to be officially admitted at Budapest that the Russians have secured a good foothold on Hungarian soil, having crossed the frontier in the Ungvar district in considerable strength. In the plains in

## JAPANESE REPORT GAINS IN KIAO CHOW

Attack on Tsing Tau Has Been Accelerated, Says Tokio.

Tokio, Sept. 29.—An official announcement today concerning the progress of events in Kiao Chow says: "Japanese forces, during the day and night of Sept. 27, drove the enemy in the direction of Tsing Tau." The Japanese casualties were 150. The German losses are not known, but fifty men and four machine guns were captured. This action, which was speedier than anticipated, has accelerated the general attack.

"The fleet has attacked the Hsiao fort, effectively aided by the army."

## LOSS OF WARSHIP IS DENIED BY FRANCE

Admiralty Statement Is Given Out at Washington Embassy.

Washington, Sept. 29.—Official denial of the sinking of a French warship by the Austrian force at Cattaro was made today by the French admiralty through the embassy here.

The French secretary for the navy has made known that this news is entirely false and that there is nothing to justify a report. Up to date (Sept. 28) no French warship has been touched by an "Austrian projectile," said the admiralty statement, which attributed the report to the Cologne Gazette.

## CONDENSED REPORTS OF WAR

The terrific battle, now in its eighteenth day, in the Aisne district to the north of Paris, continues to rage, but its violence is generally held to portend a decisive result in the near future. Furious hand-to-hand fighting is going on, and the losses to both the allied and German armies are enormous.

Several times the Germans hurled their masses of troops against the French left wing, but in every case they were repulsed, according to the official statement issued by the French war department this afternoon. In the center, it is asserted, a heavy cannonading is going on, while between the Argonne forest and the River Meuse the allies have made some progress.

The German general staff, Berlin advices say, claims that the situation on French soil has not changed, and it is emphatically declared that the battle at any point of the line is going in favor of the allies.

Calicia has been almost cleared of Austrians, according to an announcement at Petrograd, and the Russians are driving the Carpathian mountaineers back into Hungary and are driving back the Austrian reinforcements sent against them. The invaders swept across the mountains into the Ungvar district, which is about 150 miles northeast of Budapest, the Hungarian capital.

Germans, estimated to number 150,000, are reported from Rotterdam to be preparing for a siege of the Belgian fortress of Antwerp.

Austrian siege guns have been brought up to take the places of the large German guns which are now being used in the fighting in the French district of Alsace. Belgian official communications state that German heavy artillery fire directed at two forts ten miles from Antwerp ceased when the forts replied to the bombardment.

The activity of the Zeppelin dirigibles stretches over a wide area. Bombs were hurled today at two Belgian towns, in one of which a consular building was damaged, and another man ship crashed a mile across the Russian frontier.

The Japanese are drawing the military cordon closer around the German territory of Kiao Chow, in the Chinese province of Shan Tung. An official Japanese statement today declares that the Japanese are driving the Germans toward Tsing Tau and that the Japanese fleet, aided by the army, has bombarded the Hsiao fort.

Russia has extended the suspension of specie payments for another month.

## NEW CARS PURCHASED BY THE DULUTH COMPANY, LATEST WORD IN CAR BUILDING

SOME OF THE NEW CARS.

The six new street cars for the Duluth Street Railway company which arrived in the city late last week are being given their "try-out" in the yards of the company today and will probably make their initial appearance on the streets of Duluth tomorrow. Employees of the company have been busy since their arrival getting them in readiness for immediate use.

The new cars are said to be "the latest word in car building." Every latest improvement now in use on cars of the country has been installed on these cars. They are large and roomy, have a seating capacity for fifty passengers and wide aisles and a broad platform. Triple gates on the platform will give rapid ingress and egress for the passengers. The cars cost the company about \$5,500 each.

The cars will take their place in the equipment of the company on Thursday

when the company's new schedule goes into effect. The schedule provides for better service to Lakeside and Hunter's Park, as well as many improvements in the schedule of runs for the employees.

A new form of time card is being prepared by the company. The time card will be of a vest pocket style and can be conveniently carried by the public. These will probably be received from the printers today and can be had tomorrow from the car starter at Third avenue west and Superior street.

All of the employees have already chosen their runs for the next three months in the running time for the men one of the new features will be the granting of a "six-day" run on the Interstate line. Previously to this change there have only been seven-day runs on the Duluth-Superior line.

served at the hall on Sunday. Col. B. Nelson of Minneapolis, leader of the Scandinavian Salvation Army in the Western states, will be the principal speaker. Services will be held at 10:30 a. m. and 8 p. m., Sunday school at 2 p. m., and special children's dedication at 4 p. m.

An attractive program is being arranged for Monday, Tuesday, Wednesday and Thursday of next week. On Tuesday evening the displays of fruit, flowers and vegetables will be sold following the close of the program.

## PAVING WILL BE COMPLETE OCT. 15

Laying of Concrete on Final Stretch Begins Wednesday.

The laying of concrete on the final stretch for paving on West Michigan street between Twelfth and Thirteenth avenues will begin tomorrow morning. It is expected to complete this part of the work by the end of the week so that by the middle of next week the crews can begin laying the sandstone.

Street cars running to and from the western end of the street will be switched over onto one track for the time being. A half that remains to be paved. A. J. Mrs. B. Haskins and daughter, 2601 Iron street, are returning from a visit with relatives at Grand Rapids, Minn.

Mrs. Samuel Bingham, 2707 West First street, will leave next week for Scotland, where she will spend the winter visiting relatives. The trip will be her first to Scotland since leaving there for Duluth twenty-seven years ago.

## PEACE PLEA BY THE CHILDREN PLANNED

Pupils in American Schools Will Be Asked to Sign It.

New York, Sept. 23.—A letter to the children of the United States, asking them to sign a petition to the rulers of the warring nations in Europe, asking for peace, has been issued by the children's peace petition committee, a committee of the general Federation of Women's clubs. Teachers everywhere in the United States are asked to read the committee's letter to their pupils, and to have them sign the petition and return it to the committee here. The petition pleads with the rulers to call an immediate truce, to suspend their differences to the Hague tribunal, and to promise to have all future difficulties adjusted in the same manner.

## AUSTRIANS SEIZE CANADIANS' FUNDS

Venice, via Paris, Sept. 23.—The Austrian government has confiscated the Canadian Pacific railway company's securities and money deposited in Vienna, it is reported, as well as the company's observation cars running on Austrian railroads. This has been done, it is said, as a consequence of the refusal of the company to pay the dividends of Austrian shares.

Italian newspapers at Trent, Austria, have been forced to suspend publication. Italian residents are being kept under the closest surveillance.

## "They Do Not Know."

Montreal, Que., Sept. 23.—Sir Thomas Sheehy, president of the Canadian Pacific Railway company, alluding to the report from Venice that the Austrian government has confiscated the road's securities and money in Vienna as well as the company's observation cars, said: "They do not know whether we will pay dividends or not. They may confiscate what they like. I do not know what they are doing over there, but we will do our duty."

## RAILROAD WILL GIVE MEN WORK.

## CANADIAN TROOPS SAILED, SAYS DUKE

Governor General Present "Recently" at Their Embarkation.

Ottawa, Ont., Sept. 23.—That the Canadian troops have embarked for Europe was admitted here last night by the duke of Connaught, governor general of Canada, at a rally at which the Ottawa campaign for the Canadian patriotic fund was initiated.

Addressing a great crowd, the duke said: "Recently I have had the pleasure several times to visit Valcartier, and also to be present at what is perhaps no longer a secret, the embarkation of the Canadian troops."

## JAPAN'S RED CROSS IS PREPARING AID.

New York, Sept. 23.—The East and West news bureau tonight announced that it had received a cable message from Tokyo as follows:

"Tokyo, Sept. 23.—Russia has accepted with high appreciation the offer of the Japanese Red Cross to assist in the hospital work. A corps of surgeons and nurses, provided with medical supplies, has been sent to the front to leave Japan in the middle of October. A movement to send Red Cross help to England and France is also on foot."

"German prisoners will receive the same treatment as was accorded the Russian prisoners in the Russo-Japanese war. For that purpose a bureau for taking care of prisoners has been established in Tokyo and all other preparations needed are under way."

## NORWAY FINDS BIG MARKET IN GERMANY.

London, Sept. 23.—The restrictions recently imposed by the Danish government upon the purchase of horses in Denmark, have compelled German horse buyers to turn to Norway, according to a dispatch from the Copenhagen correspondent of the Standard.

The Norwegians are not anxious to sell, and the Germans are offering fancy prices. A party of Germans also is endeavoring to arrange for shipment of horses from America.

Tinned provisions, foodstuffs and tea are now largely imported into Germany from Scandinavia, says the correspondent, buyers explaining that "the Russian and English prisoners want tea, so Germany must buy irrespective of cost."

## VORWAERTS SUPPRESSED

Publication of Social Democrats' Organ Indefinitely Suspended.

Berlin Says Austrians Sunk Big French Warship.

Berlin, Sept. 28, via London, Sept. 29.—By order of the military commander of the province of Brandenburg, the Vorwaerts, organ of the Social Democratic party, has suspended publication indefinitely.

Emperor William on Saturday visited his son, Prince Oscar, who is ill with heart trouble at Metz. The duchess of Brunswick, sister of the prince, arrived the same day and will remain with her brother until he returns to the front.

A dispatch to the Cologne Gazette from Igau, Dalmatin, asserts that the Austrian fleet at Cattaro on Sept. 19 sunk a big French warship. The forces had intercepted a wireless message concerning the movements in the direction of Cattaro of fifteen warships and three cruisers. The Austrians awaited their arrival, fully prepared. A salvo from the first fort sank the warship and the other vessels in the fleet hastily retreated.

Report on Submarine.

The official report concerning the sinking recently of the three British cruisers, Aboukir, Crevec and Hogue, by the German submarine U-9 in the North Sea, asserts that the U-9 was in action one hour. This was the time elapsing between the firing of the first shot and the last torpedo. The British cruisers, according to the report, did not fire a single shot. When attacked, they were steaming abreast with the Aboukir in the middle.

A report that German vessels accompanying the submarine fleet the Dutch flag was contradicted.

It is emphatically denied that any other submarines took part in the attack and that any were sunk after the destruction of the Crevec. Several British cruisers, torpedo boats and destroyers pursued the U-9 until evening, going as far as the Terschelling bank, where the submarine escaped under cover of night.

## COLDS, HEADACHES, SOUR STOMACH? REGULATE YOUR BOWELS--10 CENTS

You men and women who get a cold easily—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are nervous and upset, bothered with a sick, gassy stomach.

Are you keeping your bowels clean with Cascarets—or merely dosing yourself every few days with salts, pills, castor oil and other harsh irritants? Cascarets immediately cleanse and sweeten the stomach, remove the sour undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

A Cascaret to-night straightens you out by morning—a 10-cent box keeps your head clear, stomach sweet, liver and bowels regular and you feel buoyant for months. Don't forget the children.

## WOULD GIVE KIEL CANAL TO DENMARK

Lord Beresford on Results of War If Allies Win.

(Correspondence of the Associated Press.)

Leeds, Sept. 15.—Lord Charles Beresford, in addressing a recent mass meeting for the purpose of stimulating recruiting here said: "The Kiel canal must be handed over to Denmark, so it will be useful for the peaceful pursuits of the world."

The remark has caused widespread comment and has become a part of the discussion of the probable results of the war if the allies should win.

When the Kiel canal was opened in 1890, the emperor of Germany, with representatives of the leading European powers as his guests, said: "Germany will range the work inaugurated today on the side of peace." It was regarded as significant that upon the enlargement of the canal last June, the occasion was not one of international celebration, although Emperor William attended, and led a great fleet of German warships through the canal—which now figures so extensively in the naval operations as a magnificent refuge for the German fleet.

German strategists insist that the Kiel canal doubles the power of the German fleet as it gives another entrance from the North sea to the Baltic and forces an enemy to scatter its strength in order to bottle up the German warships. Eight enormous sidings have been provided within the enlarged canal in which ships may be stored in great numbers.

English strategists assert that the value of the canal has been discounted considerably by the developments of the present war, and declare that it has, if anything, rendered the German fleet more immobile than it might otherwise have been.

It was Lord Beresford's contention that Denmark would never be safe so long as Germany held this important waterway across the Danish peninsula, and he hoped to see the day when it, together with Schleswig-Holstein, would be restored to Denmark.

Enumerating other obligations which he said would fall upon the allies if they defeated Germany, he said the first duty would be to Belgium, which would have to be amply rewarded for the wrongs it had suffered. He said they would then have "the great Krupps plant destroyed and all German forts razed."

## FRENCH CANADIANS TO RAISE 5,000 MEN.

Ottawa, Ont., Sept. 29.—A French Canadian force, numbering 5,000 men, is to be raised for service with the British army in Europe.

Among the 30,000 men gathered for the first expeditionary force, there are 2,500 French Canadians. Leading men among them feel this does not adequately represent them.

Dr. Arthur Mignault of Montreal gave \$50,000 to the government to defray the expense of equipping the force.

## NINE KENTUCKY COUNTIES GO DRY

Louisville, Ky., Sept. 29.—Nine of twelve Kentucky counties in which local option elections were held yesterday voted "dry," according to unofficial returns. Those counties voting to remain "wet" were Henderson, with a majority of 1,053; Fayette, 3,264, and Anderson with 64.

The election leaves 14 of 120 counties in the state "wet."

## CHARGE FRAUD AGAINST ABAS

Crookston Man Alleged to Have Tried to Beat Immigration Laws.  
Is Charged With Helping Deported Pair to Re-Enter Country.

Crookston, Minn., Sept. 29.—(Special to The Herald.)—A. Abas, a local business man, was arrested yesterday charged with conspiracy in attempting to defraud the United States immigration laws. He was taken into custody by Special Agent Davis of St. Paul, who has been engaged for several days investigating the case. Abas has been furnished and Abas released pending the action of the Federal grand jury, which will probably meet at Fargo, N. D., some time in December.

It is alleged that Abas was instrumental in bringing his half brother, A. Kady, an Assyrian, and the latter's wife into the country under assumed names after the Federal authorities had once deported Mrs. Kady as an undesirable alien. This happened last winter, when Kady and his wife arrived in New York from Assyria. She was found to be of unsound health about fourteen years, but had never taken out naturalization papers because of some trouble he became involved in near Fargo. Therefore, not being a citizen of the United States, he could not land his wife under the same circumstances, and he accompanied her to London. There, it is stated, Kady opened correspondence with Abas here with a view of helping him out of his predicament.

What is charged is that Abas is accused of having conspired to procure naturalization papers from one Willie Eli, another Assyrian, and forwarding them to Kady so the latter could use the papers in returning to the United States. In the papers, it was discovered, however, that Eli had been divorced, and that Kady was a married man, and that the papers were straightened out in order to assure the safe entry of Mr. and Mrs. Kady. It is further alleged that Abas had Albert Hassan and another man swear falsely to two affidavits intended to unravel the divorce tangle and these were forwarded to Kady. Armed with Eli's naturalization papers and the affidavits, Kady and wife sailed from London under assumed names and landed in

## MAKING MONEY BY FATTENING SHEEP

Polk County Farmers Turning Attention to New Industry.

Crookston, Minn., Sept. 29.—(Special to The Herald.)—Fattening Montana sheep for the market is becoming quite an industry in Polk county. R. T. Buckler has been fattening a good sized bunch of the animals ever since he began farming in Polk county and now has 4,200 of them on his land southwest of here having just driven them through Crookston from his range ten miles northeast of here. Mr. Buckler has made a success of sheep every year he has been here, and will not get a substantial profit from his flock this year. He says this is an ideal sheep country. Last winter the sheep foraged their living from the fields practically the entire winter as he did not have to feed them any grain or roughage of any kind with the exception of about ten days of the latter part of January and the first of February, thus the cost of keeping them over was practically nothing. Mr. Buckler states that in the fall and winter months the sheep thrive with what otherwise would go to waste and at the same time mind in fertilizing it.

Many other farmers are following his example. C. H. Winslow of central Polk county having shipped up 300 head from the South St. Paul market recently to fatten on his place. Mr. Winslow paid \$4.25 per 100 for his and with freight the net cost was about \$4.50, notwithstanding that which he will make a substantial profit. Mr. Buckler bought his sheep at a very low cost in Montana last fall so his profit will be substantially larger than the cost of keeping them very little. Without any question the sheep industry in this section is becoming more and more important each succeeding year—one of the substantial evidences of greater diversification.

## COPPER COUNTRY'S FAIR AT HOUGHTON

Indications Point to Annual Show Being Up to Normal.

Houghton, Mich., Sept. 29.—(Special to The Herald.)—Everything is in readiness for the opening of the annual Copper country fair in the Amphidrome here this afternoon. The exhibits are practically all in place and the display promises to be up to normal. The arrangements of the exhibit are a little different than usual. At the right of the entrance, on the ground floor, is the exhibit of children's work, apart from the school exhibits. Adjoining this is the fancy work department, the flower department in its usual place, across the east end of the Amphidrome. The men's waiting room is the flower department in its usual place, across the east end of the Amphidrome. The men's waiting room is the flower department in its usual place, across the east end of the Amphidrome.

On the north side of the building is the art department and the domestic science department fills up the remaining space on that side. The preserves and home cooking section is in the women's waiting room, and the flower department in its usual place, across the east end of the Amphidrome. The men's waiting room is the flower department in its usual place, across the east end of the Amphidrome.

The business booths are east of the stage and take up the entire section, not sharing it with fair departments as in other years. The livestock show is in the building at the north end of the fair grounds, a separate building for cattle, horses, sheep, pigs and poultry.

He was arrested and all have been made good by her husband and friends and it unlikely there will be any prosecutions.

## LOSES BOTH LEGS NEAR WINTER, WIS.

Coudersburg, Wis., Sept. 29.—(Special to The Herald.)—John Sweatlich, track foreman for the Kaiser Lumber company, had both his legs cut off Monday afternoon, by being run over by an engine on their lumber concern's tracks near Winter. It is claimed he was under the influence of liquor and was sleeping alongside the track.

## NORTH DAKOTAN HUNTING VICTIM.

Williston, N. D., Sept. 29.—Elbridge Uhlman, a young McKenzie county rancher, was the victim of the first local hunting accident of the season. He was hunting chickens with two other boys about 16 years old from Williston, and ran ahead of their guns as the birds rose. One charge struck him in the back of the head, causing instant death. He leaves a young wife who is a daughter of Samuel Boyd of Williston. This is the father of the well-known horseman, was killed in a train wreck in Pennsylvania three years ago while importing horses from France.

Detroit, Minn., Sept. 29.—The Northwestern branch of the Women's Foreign Mission society will be in session here Oct. 2 to 6. This branch embraces the states of Minnesota, North and South Dakota. Eighty delegates from the various churches of the region will be present. The branch cabinet, Mrs. H. E. Spence, president; Mrs. F. F. Lindsay, corresponding secretary; Mrs. George D. Taylor, associate secretary; and Mrs. C. W. Hall, treasurer, will have charge of the sessions. Three new missionaries are to be consecrated and sent to the field from this convention.

## MOVING TO WATFORD.

North Dakota Town Sanguine of Getting McKenzie County Seat.  
Watford, N. D., Sept. 29.—(Special to The Herald.)—The people of Watford are quite certain of securing the county seat of McKenzie County. The McKenzie County bank and the Farmers State bank, which are the present county seat, removed here. Mr. Graham, of the Schaefer Record, has established the Watford Gun and Game store. Schaefer is a four mile branch store. Schaefer is a county seat. The business booths are east of the stage and take up the entire section, not sharing it with fair departments as in other years. The livestock show is in the building at the north end of the fair grounds, a separate building for cattle, horses, sheep, pigs and poultry.

## CRAZED BY WAR TALK.

Pole Recently From Canada Mentally Upset By Martial Times.  
Bowbells, N. D., Sept. 29.—(Special to The Herald.)—Receiving a call from Parella that an insane man was locked in a box car, the sheriff went there and found a recently arrived Pole in a very excited condition as a result of the war talk had given him such a scare he was almost insane. He was taken to Fort Snelling and the immigration officials as he had ridden the line into this state from Canada.

## FATHER BOUND OVER.

Red Lake County Man Slaps Daughter and She Dies.  
Red Lake Falls, Minn., Sept. 29.—The father of Dorothy Braunly, aged 15, living at Brooks has been held to the grand jury following a coroner's inquest into the death of the girl Sunday. It is said that Dorothy and her sister had been chided by their father for making too much noise about the home and that the father slapped Dorothy. The girl started to go to her mother and fell over dead. The father is in the county jail here.

Cost Thief Taken.  
Mott, N. D., Sept. 29.—(Special to The Herald.)—B. Lockhammer notified the local officials that Joseph Crannell of the Great Northern along the sheriff started on the trail of the robber and located him, not only with the cost, but with a large caliber rifle and a new revolver Crannell is thought to have stolen along his route.

Kills Self Cleaning Gun.  
Gladstone, Mich., Sept. 29.—The funeral was held here of Gust Nordgren of Collarwood, a lumberjack, south of Trout creek, who accidentally shot and killed himself Saturday while cleaning a gun.

Nordgren evidently forgot that there was a loaded cartridge in the gun, as his left hand shot at Greenwood. The boy, in company with some friends, started out for an early morning hunt. They were climbing through the fence and the Kahen boy's gun hit against a rock with a force that caused its discharge. His left wrist was badly torn.

JUST because you want tobacco satisfaction is no reason why you need to put a big wad in your cheek, and then have to grind on it. A small chew of "Right-Cut" satisfies you. It's the Real Tobacco Chew. The glad news spreads from friend to friend.

Very likely you yourself have already started several of your friends on "Right-Cut."

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how the tobacco taste is so tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

## PARTRIDGE NUMEROUS

Hunters Will Go Out in  
Great Numbers on  
Oct. 1.

The open season for partridge will begin Thursday and continue until the end of November.

Many local hunters are making preparations to get into the woods to take advantage of the early season shooting, but the biggest crowd will hike for the tall pines Saturday and Sunday, spending the week-end in quest of the birds.

The partridges are found in all directions. Many are killed within the city limits and within a short distance of them. Scores of hunters will go no farther than they can walk after they leave the street cars, while others will strike out for the bush directly from their homes.

**Auto More Popular.**  
The increasing popularity of the automobile is requiring the motorists to travel farther for their bags, however. Those owning machines and it easy to slip out of the city after dark and return before dark with several, and sometimes many, birds. The consequence is that the birds are pretty well shot off along roads where two or three years ago it was not an uncommon sight to see half a dozen within a few minutes or half an hour.

Deputy Game Warden Thomas J. Storey states that partridges are as plentiful this fall as they were last, as nearly as he can judge from his trips into the country. But he declares that both partridges and prairie chickens would be better protected, and therefore more numerous, if the season for prairie chickens open Sept. 15 or a week later.

"It is just as reasonable to have separate openings for different kinds of ducks as to have different openings for prairie chickens and partridges," he said today. "Partridges and prairie chickens belong to the same family. The prairie chicken is a pinated grouse and the partridge is a ruffed grouse. It would be as sensible to have the season for teal ducks open one month and that for mallards another month as to have the season for prairie chickens open Sept. 7 and that for partridge open Oct. 1, which is now the case."

**Children Carry Rifles.**  
Warden Storey stated that parents should not be so careless about allowing their 12 and 14-year-old boys to have rifles. He said that he picked up six boys yesterday who were armed with .22-caliber rifles hunting partridge. Between them they had killed four birds. He held that if the boys didn't know they were violating the

**Water Department Pumps  
Less and Sells More  
Water.**

Although the revenue of the light and water department has increased approximately 20 per cent in the last year, the amount of water pumped has decreased a trifle over 1 per cent, according to D. A. Reed, manager of the water and light department.

The gain in the receipts has been principally due to the addition of new customers while the decrease in the pumping has been owing largely to the stoppage of numerous leaks in the mains. The manager explains that he has helped out the revenue, but only in small part, as this amount to about \$1,500 per year, while the increase in the minimum rate has resulted in big consumers cutting down the quantity of water used.

One of the biggest leaks was being made by a systematic investigation of all mains in the city to discover leaks. # GERMANS' BIG GUNS FAIL TO SILENCE THE FORTS AT ANTWERP

Vigorous Bombardment Is  
Replied to By the  
Belgians.

Defenders Make Sorties  
and Repulse Attackers  
With Heavy Loss.

Agreement to Spare His-  
toric Buildings Proposed  
By Germans.

Antwerp, Sept. 30, by way of Lon-  
don, 4 p. m.—An official statement is-  
sued by the Belgian general staff to-  
day says:  
"A vigorous German bombardment of  
Forts Waelhem, Wavre and St. Cathar-  
ine which was continued throughout  
the night, abated at 8 o'clock this  
morning. The assailants did not suc-  
ceed in silencing the guns of the Bel-  
gian forts nor in any way lowering  
the morale of the garrisons of the  
forts.  
"At no point did the German infan-  
try dare to move against our first  
lines of defense. Only one attempt  
was directed against Forts Liezele and  
Bredonk. Our troops, holding posi-  
tions between these works, allowed  
the enemy to advance until they were  
within close range of the artillery  
and infantry, working in a remark-  
able combination, showed the attack-  
ing column with a hail of projectiles  
and bullets which threw their ranks  
into disorder and compelled a precipi-  
tate retreat.  
In short, the events of the day con-  
firm the confidence of the Belgian  
national redoubt."

Garrison Made Sorties.  
London, Sept. 30, 2:30 p. m.—A dis-  
patch to Reuters' Telegram company  
from Antwerp says that the Tele-  
gram has received this message from  
Antwerp:  
"From various points the garrison  
(Continued on page 6, third column.)"

## KAISER'S PEDIGREE STOCK ALL SEIZED Captured By Russians and Given to Breeding Societies.

London, Sept. 30.—A dispatch to the  
Star from Petrograd says that among  
the remarkable war trophies arriving  
at Smolensk is the entire stock of  
Emperor William's famous pedigree  
cattle and stud horses, captured by the  
Russians from the estate of the  
Rominten, in East Prussia. They were  
taken to Moscow and presented to the  
Russian agricultural institute for dis-  
tribution to agricultural breeding asso-  
ciations.

## CHINESE WOMAN IS GUILTY OF SLAVERY First Such Conviction in San Francisco Is Obtained.

San Francisco, Sept. 30.—The first  
conviction on record in this part of the  
Union for keeping a human being in  
slavery was obtained here yesterday.  
In the United States district court,  
Mrs. Wong Sam, an aged Chinese woman,  
was found guilty of holding in  
bondage Loy Guep, a slave girl.  
Evidence was that the girl was smug-  
gled into this country and sold for  
\$2,000. After she had worked out her  
contract, she still was held, under  
threats that if she attempted to escape  
she would be buried alive.

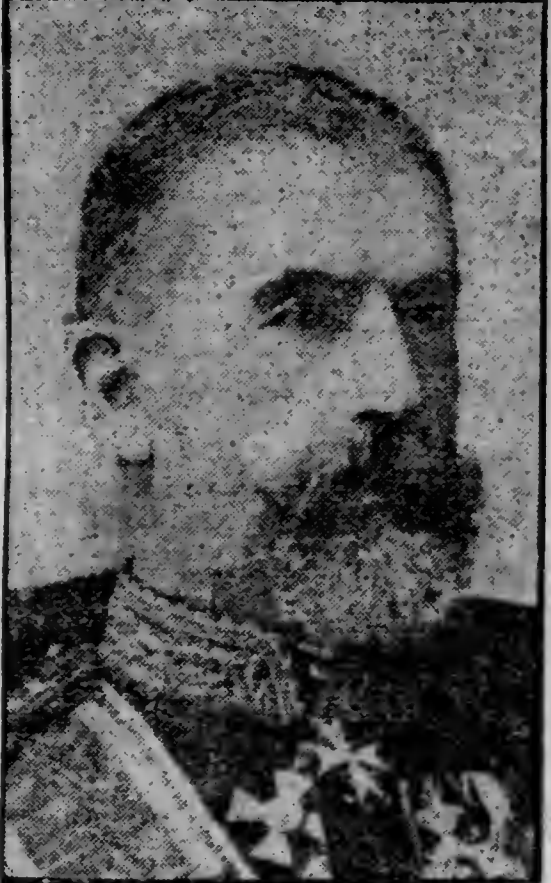

## BIG OPEN AIR PEACE SERVICE IS PLANNED Will Be Conducted By Epis- copalians at the Capital.

Washington, Sept. 30.—A great open  
air service at which prayers will be  
said that peace may come to the war-  
ring European countries, in ac-  
cordance with President Wilson's peace  
proclamation, will be held at Mount  
St. Alban's Episcopal cathedral grounds  
next Sunday. Arrangements for the  
services were nearing completion to-  
day. More than 5,000 persons are ex-  
pected to attend.  
The services are to be held around  
the Peace Cross in celebration of what  
is being called in Episcopal churches  
here "The Day of Intercession for Peace  
and Pardon."

## PINCHOT VICTIM OF PTOMAIN POISONING Wife Tells Political Audi- ences Why He Cannot Keep Dates.

Erie, Pa., Sept. 30.—Gifford Pinchot,  
Washington postmaster and United  
States senator, was confined to his  
hotel here today, suffering from a  
severe attack of ptomaine poisoning.  
Mr. Pinchot, who had been delivering  
an address last night, Mrs. Pinchot,  
who accompanied him, spent the day  
visiting towns where Mr. Pinchot was  
to speak and explaining to waiting  
audiences why he was not present.

## TRIED VAINLY TO GO TO AID OF GERMANY

KING CHARLES  
OF ROUMANIA.

## NELSON FLAYS CLAYTON BILL

Joins in Reed's Attack on  
the Anti-Trust  
Measure.

Says Lobbyists Fought It  
First and Now Are  
Sued.

From The Herald Washington Bureau.  
Washington, Sept. 30.—Senator Knute  
Nelson of Minnesota today made a  
savage attack on the lobby in his  
speech in opposition to the conference  
report on the Clayton bill.  
Senator Nelson declared the confere-  
nce committee on the bill, which was  
report made by Senator Reed, he as-  
sailed the deletion of drastic provi-  
sions.  
"I have never known a greater  
amount of lobbying on any measure  
than on this provision regarding tying  
contracts," he said. "I was approached  
again and again by men  
and women. They dangled the effect  
of the Walsh amendment, which rendered  
such contracts null and void."  
Senator Nelson declared the confere-  
nce committee emasculated, denuded  
and rendered it of no effect as a re-  
medial bill. "It has become mild, in-  
deed," he said. The senator said the  
house bill was good as far as it went,  
and was still better as it left the sen-  
ate.  
"As it came from the conference," he  
said, "it is of no earthly use."  
"Haven't you been approached since  
that conference?" asked Senator  
Overman, a member of the confere-  
nce committee and chairman of the lobby  
committee.  
"Not at all," Senator Nelson replied.  
"No one is afraid of the bill as drawn  
by the conference. They know it won't  
hurt them."

## BAVARIAN CROWN PRINCE CAPTURED

Made Prisoner When French  
Recapture Places Near  
Verdun.

London, Sept. 30.—The correspondent  
of the Times at Nancy, France, tele-  
graphing under date of Sept. 26, gives  
an unconfirmed report that the French  
have recaptured St. Mihiel, a fortified  
campment on the Meuse, twenty miles  
south-southeast of Verdun, and also  
that they have captured the prince of  
Bavaria at Nomeny, fourteen miles  
north of Nancy. The correspondent  
adds that, according to the report, the  
Germans are assaulting Nomeny with  
the object of setting the prince free.

## TERRIFIC GALE ON NORTH SEA COAST

German Air Maneuvers  
Near Kiel Have Been  
Abandoned.

London, Sept. 30.—"The heaviest gale  
within living memory is sweeping over  
Denmark and the North sea, along the  
whole German coast," says a Copen-  
hagen correspondent of the Daily  
News.  
"Considerable damage has been done  
to property," continues the dispatch.  
The German air maneuvers in the  
neighborhood of Kiel have been aban-  
doned. A telephone message from  
the German coast states that a number  
of bodies of German sailors in uniform  
were washed ashore Monday north of  
Bobbio, a telegraphic communication  
has been considerably upset."

## ROUMANIA TO TAKE SIDES?

Cabinet Is Called Into Spe-  
cial Session to De-  
cide Policy.

King Is Said to Have Tried  
Vainly to Join  
Kaiser.

London, Sept. 30.—The Rome corre-  
spondent of the Exchange Telegraph  
company reports that a message re-  
ceived at Rome from Bucharest says  
that King Charles has summoned the  
cabinet in special session tomorrow to  
decide the attitude of Roumania to-  
ward the war.  
"We are quite willing if it is against  
Austria," the king is reported to have  
said.  
King Charles turned to him and said:  
"I gave my word to Emperor William  
and a Hohenzollern keeps his word."  
J. J. Bratiano, the president of the  
council, here interposed, saying: "The  
country knows no Hohenzollern. It  
knows only the king of Roumania, who  
does not have to give his word to any-  
one whatsoever."  
"The First Victim."  
King Charles then decided to call a  
council of the crown with the former  
ministers in attendance, but only one  
sided with him in favor of Germany.  
It is then reported that the king ap-  
plied to Gen. Averesco to try a coup  
d'etat and arrest the ministers, but  
Averesco refused, saying: "Sire, you  
will be the first victim."  
It is said also that some superior  
officers declared they would desert and  
join the Russian army rather than  
fight for Austria.

## FOUR GARIBALDIS FRENCH OFFICERS

All Are Assigned to the  
Same Regiment.

Paris, Sept. 30.—Among the nomina-  
tions published in the official Journal  
today, says the Bordeaux correspond-  
ent of the Havas agency, are those of  
Giuseppe Garibaldi as lieutenant col-  
onel; Ricciotti Garibaldi as captain; and  
Santi and Brino Garibaldi as lieuten-  
ants; all of the First foreign regi-  
ment.  
A number of Italian surgeons in the  
reserves, says the correspondent, have  
been taken into the service of the  
French army, and named surgeon-majors.

## AUSTRIAN WARSHIP HIT BY A TORPEDO.

London, Sept. 30.—A dispatch to the  
Times from Milan gives under reserve a  
report that while two Austrian war-  
ships were attempting a sortie from  
Cattaro one of them was torpedoed.

## GERMAN SHIP HIT BY JAPANESE AVIATORS.

Tokio, Sept. 30.—Japanese aeropl-  
anists assert they hit a German vessel  
during the latest fighting at Kiao Chow,  
at a height of 700 yards. Two bi-  
planes and one monoplane were en-  
gaged. The wings of the machines were  
riddled with bullets, yet they returned  
in safety to their base.

## LONG 'BOUT THIS TIME O' YEAR.

Paris, Sept. 30.—A dispatch from  
Petrograd to the Exchange agency  
says the Kurds, incited by the authori-  
ties, have attacked the Persian popula-  
tion near the frontier. According to a  
dispatch from Erzerum, Turkish Ar-  
menia.

## FIREWORKS MAKER DEAD

H. B. Thearle and Three  
Employees Lose Lives  
in Explosion.

Chicago, Sept. 30.—H. B. Thearle,  
president of the Fair Fireworks Display  
Company of America, and two em-  
ployees were killed here today in a fire  
and series of explosions which de-  
stroyed the one-story brick building  
occupied today by the company at  
1320 South Wabash avenue.  
A missing employee also is believed  
to have lost his life.  
Identification of the dead was made  
by R. J. Byrnes, manager of the com-  
pany, who owes his life to the fact that  
he had just stepped into the street  
when the first explosion from an  
unlocated cause occurred.  
Three Dead, One Missing.  
The dead:  
H. B. THEARLE, president of the  
company.  
E. M. CONNOR, a salesman.  
FLORENCE HILL, stenographer.  
Missing:  
R. F. Wolf.  
The victims had scarcely a chance  
to stir out of their tracks, so rapidly  
did the explosions follow and the  
building became wrapped in flames.  
The north wall of an eight-story build-  
ing to the south was blown in, causing  
a panic among the occupants, who,  
however, reached the pavements safely  
by fire escapes, the women being as-  
sisted by firemen.  
Across the street similar scenes were  
witnessed when flaming debris, shot by  
the explosions, shattered the windows;  
but there was no loss of life.  
Monetary loss is estimated at \$50,000.  
John Costello, badly injured, was  
found later in hospital. He was  
blown through a rear door by the ex-  
plosion.

## PAIR COMPANY'S PLANT IN HEART OF CHICAGO IS DESTROYED.

## GERMANS' BIG GUNS FAIL TO SILENCE THE FORTS AT ANTWERP

Vigorous Bombardment Is  
Replied to By the  
Belgians.

Defenders Make Sorties  
and Repulse Attackers  
With Heavy Loss.

Agreement to Spare His-  
toric Buildings Proposed  
By Germans.

Antwerp, Sept. 30, by way of Lon-  
don, 4 p. m.—An official statement is-  
sued by the Belgian general staff to-  
day says:

"A vigorous German bombardment of  
Forts Woluwe, Wavre and St. Catherine  
which was continued throughout  
the night, started at 8 o'clock this  
morning. The assailants did not suc-  
ceed in silencing the guns of the Bel-  
gian forts nor in any way lowering  
the morale of the garrisons of the  
forts.

"At no point did the German infantry  
dare to move against our first  
line of defense. Only one attempt  
was directed against Forts Liezele and  
Frederik. Our troops, holding posi-  
tions between these works, allowed  
the enemy to advance until they were  
within close range when the artillery  
and infantry, working in a remark-  
able combination, shattered the attack-  
ing column with a hail of projectiles  
and bullets which threw their ranks  
into disorder and compelled a precipi-  
tate retreat.

"In short, the events of the day confirm  
the confidence of the Belgians in the  
power of resistance of their national  
redoubt."

German Made Sorties.

London, Sept. 30, 2:30 p. m.—A dis-  
patch to Reuters' Telegram company  
from Amsterdam says that the Tele-  
gram has received this message from  
Antwerp:

**KAISER'S PEDIGREE  
STOCK ALL SEIZED**

Captured By Russians and  
Given to Breeding  
Societies.

London, Sept. 30.—A dispatch to the  
Star from Petrograd says that among  
the remarkable war trophies arriving  
at Smolensk is the entire stock of  
Emperor William's famous pedigree  
cattle and stud horses, captured by the  
Russians from the emperor's estate at  
Rommelen, in East Prussia. They were  
taken to Moscow and presented to the  
Russian agricultural institute for dis-  
tribution to agricultural breeding asso-  
ciations.

**CHINESE WOMAN IS  
GUILTY OF SLAVERY**

First Such Conviction in  
San Francisco Is  
Obtained.

San Francisco, Sept. 30.—The first  
conviction on record in this part of the  
Union for keeping a human being in  
slavery was obtained here yesterday.  
In the United States district court,  
Mrs. Wong Sam, an aged Chinese woman,  
was found guilty of holding in  
bondage Loy Gum, a Chinese boy.

Evidence was that the girl was smug-  
gled into this country and sold for  
\$2,000. After she had worked out this  
charge, she still was held, under threat  
that if she failed to comply with her  
work she would be buried alive.

**BIG OPEN AIR PEACE  
SERVICE IS PLANNED**

Will Be Conducted By Epis-  
copalians at the  
Capital.

Washington, Sept. 30.—A great open  
air service at which prayers will be  
said that peace may come to the war-  
ring European countries, in accord-  
ance with President Wilson's peace  
proclamation, will be held at Mount  
St. Alban's Episcopal cathedral grounds  
next Sunday. Arrangements for the  
services were nearing completion to-  
day. More than 5,000 persons are ex-  
pected to attend.

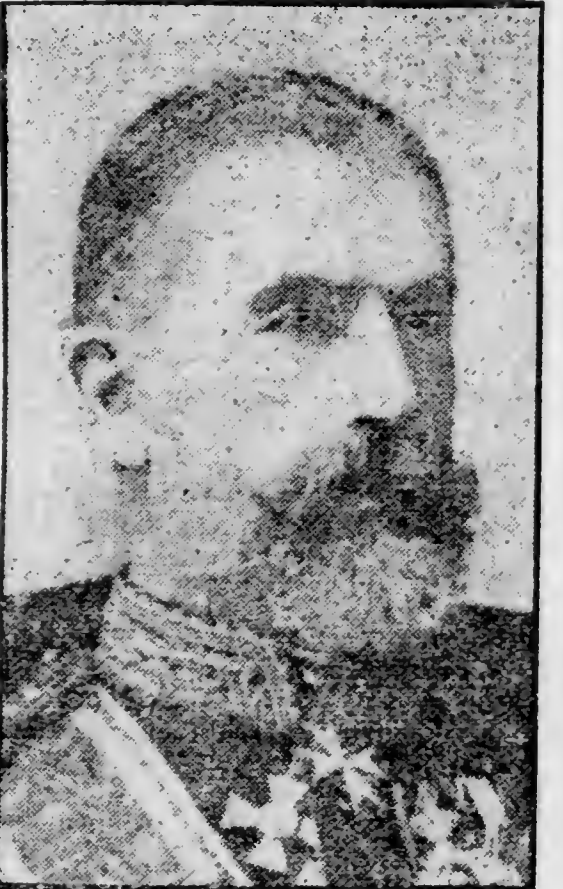

The services are to be held around  
the Peace Cross in celebration of what  
is being called the "Day of Intercession for Peace  
and Pardon."

PTOMAIN POISONING**

Wife Tells Political Audi-  
ences Why He Cannot  
Keep Dates.

Eric, Pa., Sept. 30.—Gifford Pinchot,  
Washington party candidate for United  
States senator, was confined to his  
hotel here today, suffering from a  
severe attack of ptomaine poisoning.  
Mr. Pinchot fainted after delivering  
an address last night. Mrs. Pinchot,  
who accompanied him, spent the day  
visiting towns where Mr. Pinchot was  
to speak and explaining to waiting  
audiences why he was not present.

## NELSON FLAYS CLAYTON BILL

Joins in Reed's Attack on  
the Anti-Trust  
Measure.

Says Lobbyists Fought It  
First and Now Are  
Sued.

Washington, Sept. 30.—Senator Knute  
Nelson of Minnesota today made a  
savage attack on the lobby in his  
speech in opposition to the conference  
report on the Clayton bill.

Senator Nelson, a Republican mem-  
ber of the conference committee on  
the bill, joined in the attack on the  
report led by Senator Reed. He as-  
sailed the deletion of drastic provi-  
sions.

"Never Saw More Lobbying."

"I have never known a greater  
amount of lobbying on any measure  
than on this provision regarding tying  
contracts," he said. "I was approached  
again and again by men and  
women. They dreaded the effect of  
the Walsh amendment, which rendered  
such contracts null and void."

Senator Nelson declared the confer-  
ence committee emasculated, denuded  
and rendered it of no effect as a re-  
medial bill. "It has become null, in-  
deed," he said. "The senator said the  
house bill was good as far as it went,  
and was still better as it left the sen-  
ate."

"As it came from the conference," he  
said, "it is of no earthly use."

"Not Afraid of It Now."

"Haven't you been approached since  
the conference report?" asked Senator  
Overman, a member of the conference  
committee and chairman of the lobby  
committee.

"Not at all," Senator Nelson replied.  
"No one is afraid of the bill as drawn  
by the conference. They know it won't  
hurt them."

**BAVARIAN CROWN  
PRINCE CAPTURED**

Made Prisoner When French  
Recapture Places Near  
Verdun.

London, Sept. 30.—The correspondent  
of the Times at Nancy, France, tele-  
graphing under date of Sept. 26, gives  
an unconfirmed report that the French  
have recaptured St. Mihiel, a fortified  
campment on the Meuse, twenty miles  
south-southwest of Verdun, and also  
that they have captured the prince of  
Bavaria at Nancy. The correspondent  
adds that, according to the report, the  
German army is in the neighborhood of  
the object of setting the prince free.

The prince of Bavaria referred to in  
the London Times dispatch is probably  
the Crown Prince Rupprecht of Ba-  
varia, who is in command of the Ba-  
varian army in that region.

**TERRIFIC GALE ON  
NORTH SEA COAST**

German Air Maneuvers  
Near Kiel Have Been  
Abandoned.

London, Sept. 30.—"The heaviest gale  
within living memory is sweeping over  
Denmark and the North sea, along the  
whole German coast," says a Copen-  
hagen correspondent of the Daily  
News.

"Considerable damage has been done  
to property," continues the dispatch.  
The German air maneuvers in the  
neighborhood of Kiel have been aban-  
doned. A telephone message from  
West Jutland states that a number  
of bodies of German sailors in uniform  
were washed ashore Monday north of  
Esbjerg. Telegraphic communication  
has been considerably upset."

## ROUMANIA TO TAKE SIDES?

Cabinet Is Called Into Spe-  
cial Session to De-  
cide Policy.

King Is Said to Have Tried  
Vainly to Join  
Kaiser.

London, Sept. 30.—The Rome corre-  
spondent of the Exchange Telegraph  
company reports that a message re-  
ceived at Rome from Bucharest says  
that King Charles has summoned the  
cabinet in special session tomorrow to  
decide the attitude of Roumania to-  
ward the war.

"We are quite willing if it is against  
Austria,"

King Charles turned to him and said:  
"I gave my word to Emperor William,  
and a Hohenzollern keeps his word."

"J. J. Bratiano, the president of the  
council, here interposed, saying: 'The  
country knows no Hohenzollern. It  
knows only the king of Roumania, who  
does not have to give his word to any-  
one whatsoever.'"

"The First Victim."

King Charles then decided to call a  
council of the crown with the former  
ministers in attendance, but only one  
sided with him in favor of Germany.  
It is then reported that the king ap-  
plied to Gen. Averesco to try a coup  
d'etat and arrest the ministers, but  
Averesco refused, saying: "Sire, you  
will be the first victim."

It is said that some superior  
officers declared they would desert and  
join the Russian army rather than  
fight for Austria.

**FOUR GARIBALDIS  
FRENCH OFFICERS**

All Are Assigned to the  
Same Regiment.

Paris, Sept. 30.—Among the nomina-  
tions published in the official Journal  
today, says the Bordeaux correspond-  
ent of the Havas agency, are those of  
Giuseppe Garibaldi as lieutenant col-  
onel; Rinaldo Garibaldi as captain, and  
Santi and Brino Garibaldi as lieuten-  
ants; all of the First foreign regi-  
ment.

A number of Italian surgeons in the  
reserves, says the correspondent, have  
been taken into the service of the  
French army, and named surgeon-ma-  
jors.

**AUSTRIAN WARSHIP  
HIT BY A TORPEDO.**

London, Sept. 30.—A dispatch to the  
Times from Milan gives under reserve a  
report that while two Austrian war-  
ships were attempting a sortie from  
Cattaro one of them was torpedoed.

The correspondent says that Austrian  
forces are still throwing up defense  
works along the frontier, the Punta  
Feltre line being defended by the  
Lancieri.

The first and second reserves and  
the Landstrum also are here. Most of  
these troops are stationed between  
Punta del Tarvis, Roßli and the Predil  
pass. To make emplacements for their  
artillery, the Austrians have leveled  
forests centuries old and have dug  
long trenches in the valley of the  
Lanthe.

**Kurd's Rising Reported.**

Paris, Sept. 30.—A dispatch from  
Petrograd to the Exchange agency  
says the Kurds, incited by the authori-  
ties, have attacked the Persian popula-  
tion near the frontier according to a  
dispatch from Erzerum. Turkish Ar-  
menia.

## FIREWORKS MAKER DEAD

H. B. Thearle and Three  
Employees Lose Lives  
in Explosion.

Pain Company's Plant in  
Heart of Chicago Is  
Destroyed.

Chicago, Sept. 30.—H. B. Thearle,  
president of the Pain Firework Display  
Company of America, and two em-  
ployees were killed here today in a fire  
and series of explosions which de-  
stroyed the one-story brick building  
occupied solely by the company at  
1320 South Wabash avenue.

A missing employee also is believed  
to have lost his life.

Identification of the dead was made  
by R. J. Byrness, manager of the com-  
pany, who owes his life to the fact that  
he had just stepped into the street  
when the first explosion from an  
unlocated cause, occurred.

**Three Dead, One Missing.**

The dead:  
H. B. THEARLE, president of the  
company.  
R. M. CONNOR, a salesman.  
FLORENCE HILL, stenographer.

Missing:  
R. F. Wolf.

The victims had scarcely a chance  
to stir out of their tracks so rapidly  
did the explosions follow and the  
building became wrapped in flames.

The north wall of an eight-story build-  
ing to the south was blown in, causing  
a panic among the occupants, who,  
however, reached the pavements safely  
by fire escapes, the women being as-  
sisted by the men.

**Damage Only \$50,000.**

Across the street similar scenes were  
witnessed when flaming debris, shot by  
the explosions, shattered the windows;  
there was no loss of life.

Monetary loss is estimated at \$50,000.  
John Costello, badly injured, was  
found later in a hospital. He was  
blown through a rear door by the ex-  
plosion.

AMERICAN DOCTORS GONE TO THE WAR ZONE

GROUP OF YOUNG SURGEONS.  
New York, Sept. 30.—A group of American doctors left New York on the  
Olympic Saturday to work in the war zone. The best known member of the  
group is Dr. Derby, who married Ethel Roosevelt. His wife accompanied him.  
In this group (left to right) are: Dr. Benjamin Johnson, Dr. Mercer Blanchard  
of Columbus, Dr. Richard Derby, Dr. Lester Rogers and Dr. Corry. All of these  
pay for their work, but they go chiefly to gain the experience which work in  
the American ambulance hospital at Paris will afford.

**WAR NEWS IN REDUCED FORM**

The turning movement directed  
against the German right wing by  
the allied armies is developing rap-  
idly, according to an announcement by  
the French war office this afternoon.  
It is declared that a vigorous assault  
on Tracy-Le-Mont was repulsed with  
heavy losses to the Germans. Tracy-  
Le-Mont is the elbow of the fighting  
line that in a general way stretches  
from that point eastward north. The  
official statement says this action  
moves more and more towards the  
north.

There is nothing in the Paris an-  
nouncement or in other official state-  
ments today, however, to confirm last  
night's assertion by a Paris corre-  
spondent of a London news agency that  
the German right wing had been  
broken.

The French war office claims also  
that slight progress has been made  
between the Argonne region and the  
Meuse and that the allies have ad-  
vanced east of St. Mihiel.

No notable movement has occurred  
on the center and the situation on  
the right is reported unchanged.

An official German announcement  
coming by way of London states that  
there has been general fighting on  
the German right, but not of a de-  
cisive character. German headquar-  
ters also reports the center of the  
battle line quiet. The French ad-  
vance in the vicinity of Verdun and  
Toul have been renewed, it is said.

A German official statement issued  
last night also described the fighting  
on their right wing as a dispatch.  
The allies operating against the forts  
on the Meuse were repulsed, it was  
said.

London, Sept. 30, 2:30 p. m.—The brief  
official communication received here  
from Paris declares that the condi-  
tions along the battle front in France  
remain unchanged.

Among the special dispatches is one  
from Nancy, which tells of the recap-  
ture by the French of St. Mihiel, and  
the capture of the crown prince of  
Bavaria, and relates that desperate  
attempts are being made to retake the  
distinguished prisoner.

No one knows, except those on the  
ground, just how the great siege bat-  
tle of the Aisne is progressing, but  
there are many indications that its  
nineteenth day may be witnessing a  
stupendous and decisive struggle in  
the valley of the Somme.

**Real Battle in Belgium.**

Belgium again has been the scene  
of fighting which, in a war of less  
magnitude than the present titanic  
struggle, would be called a great bat-  
tle, as it is estimated that more than  
15,000 men were engaged yesterday in  
the Antwerp triangle.

During the day desperate fighting  
took place along a line extending from  
Termonde to the crown prince of  
Belgium. The Germans are reported to  
have been reinforced from the south  
of Brussels and are steadily drawing their lines about the  
latter city. The only far from the  
German military government is  
preparing to remove to Namur.

having been obtained.

Continuing the dispatch says that  
the cholera has been reported in va-

## METHODIST CONFERENCE OF NORTHERN MINNESOTA OPENED AT MONTEVIDEO

Rev. C. R. Oaten of Duluth  
Is Unanimously Elected  
Secretary.

Sunday Program to Include  
Special Prayer for  
World Peace.

Supt. M. P. Burns Presents  
Report on Progress of  
Duluth District.

Montevideo, Minn., Sept. 28.—(Special to The Herald.)—The Northern Minnesota conference of the Methodist Episcopal church opened the business session of its twentieth annual session at the First Methodist church of this city at 8:30 o'clock this morning with a devotional service led by Bishop William O. Shepard, D.D., who is here to preside at the conference. Rev. W. F. Hovis of Duluth preached the conference sermon, after which the sacrament was administered by the bishop, assisted by the district superintendents and Rev. G. R. Oaten, pastor of the local church.

**Prayer for World Peace.**  
The conference voted to devote a part of the Sunday morning program to special prayer for world peace, in accordance with President Wilson's prayer.

Over 100 members of the conference responded to roll call, and others are constantly arriving. Eight members of the conference died during the year: Rev. Messrs. Neal, Lathrop, C. T. Barkun, H. L. Farber, Robert Forbes, Levi Hall, C. W. Lawson, A. F. Thompson and Robert Burnin. Of these all, except Dr. Robert Forbes, were all retired ministers.

**Secretary Oaten Re-Elected.**  
The organization of the conference resulted in the election of the following officers: Secretary, Rev. Charles R. Oaten of Duluth, for the seventh time unanimously elected; assistant secretaries, Revs. J. A. Stafford of Litchfield, C. W. Romshaw of Cloquet; F. W. Hanson of Minneapolis; R. W. Duell of Sauk Center; W. A. Rice of Clinton; H. B. Adams of Beardsley; and J. W. Schenck of Aurora; treasurer, Rev. J. R. Davis, Rosville; assistant treasurers, Revs. C. W. Gilman of Bemidji, F. J. Ryan of Clearwater; Crawford Gray of Howard Lake; John Walker of Wayzata; L. Radcliffe of Kimball; T. G. Galbraith of Koyah; J. C. Jewell of Walker; R. P. Cummings of Souda; E. J. Smith of Ely; P. J. Greene of Oakes; W. J. Barr of Buffalo; Blaine Lambert of North Branch; O. D. Cannon of Ely; G. R. Findall of Alexander; E. A. Cooke of Monticello; and W. C. Hodson of Minneapolis.

The four district superintendents, Doctors M. P. Burns of Duluth, T. W. Stout of Minneapolis, W. H. Jordan of Litchfield, and S. L. Fergus of Fairbault, read their annual reports. The conference opened last evening with a public session, which was in the nature of a welcome by the city. Summer home residents of the Montevideo Commercial club, delivered the principal address, and Rev. Dr. Jordan, principal address, and Rev. Dr. Jordan, made reply in behalf of the conference.

BISHOP W. O. SHEPARD,  
Presiding Over the Conference.

REV. CHARLES R. OATEN  
Of Duluth, Elected Secretary for the  
Seventh Time.

Rev. Dr. W. E. J. Gratz, pastor of Central Park church, St. Paul, spoke at the Epworth league anniversary, which was held last night.

The local arrangements for the care of the 200 or more delegates are splendid. Citizens have freely offered their homes for the purpose; churches of all denominations are placing their buildings at the disposal of the committee, while the delegates arriving were met at the depot by autos and conducted to the exact length or width, but I am thoroughly convinced that it is a most commendable result. Whatever the method used to bring men to the point of decision and action, we should in our judgment, in our pulpits, administrations, proclaim the message of eternal hope and inspiration, and immortality in a way that will reach the individual heart, and reconstruct and regenerate the individual life during that present preaching hour. As a result of all efforts put forth for the winning of men to the kingdom, the following numbers have been received into church fellowship: First Church, Duluth, 190; Endon, 75; Grace, 60; Asbury, 35; Lester Park, 25; Aitkin, 44; Grand, 40; Rockport, 17; Crosby, 29; Deerwood, 12; Eveleth, 50; Hibbing, 21; McGregor circuit, 20; Two Harbors, 23; Virginia, 57; Wagon, 15; together with smaller numbers uniting with other churches to the total of 80. In all, we have received into membership about 300 persons. Some have died, and some have been given letters, but we think there will be at least a 10 per cent increase in this department of our church activities.

**Sunday School Work.**  
The Sunday school work is one of the most encouraging features of our church life. The fact is, we are just beginning to awaken to the full sense of our responsibility, as a church, along this particular avenue. We are just now, for the first time in our history, learning the A. B. C. in the great lesson of how to grip the hearts of the boys and girls. We are hampered to some extent by not having a sufficient number of thoroughly trained and consecrated teachers. However, the teachers' training classes are in a large measure obviating this serious difficulty. Let us earnestly petition the Lord to send forth the greatest number of workers into this department of spiritual cultivation, because we deem it to be the most important division of the work of the kingdom.

**The women of the church are doing splendid heroic work.** The Ladies Aid societies, in many instances, have done a marvelous work. The W. P. M. S. and the W. H. M. S. are doing good work, and the number of organizations is constantly increasing.

**The missionary spirit in this territory has never been aroused.** The church in this respect is sleeping the sleep of utter indifference to this item, and it is made to the people to awake and address themselves to this item, they languidly reply, "What is home missionary territory, and why should we worry?" But, we suggest that it is a real genuine Christian and not at the same time a missionary in thought and action. The missionary atmosphere is native to the devout and active church that is not missionary in tendency and temperament will be short lived and exist merely as a shadow during the period of its existence.

**Spills of all these hindering conditions the benevolences have been presented and presented.** I am persuaded this year result the amount of the benevolences will show at least a 20 per cent increase over any other year in the life of the church. The current expense budget is still the nightmare of the church, and it is impossible. But still, some progress has been made in church finance. There have been increased systematic business methods have been developed, the general conference variance and exact oil and constant pressure will be the final, win the victory.

The Epworth leagues in the district

are sources of real power and spiritual uplift to the churches in which they are organized, and properly directed, they are a pronounced success and much harmony is generated and much back by the delegates to their individual leagues, which argue well for the future of this institution.

**Churches Dedicated.**  
"Almost my first official duty after coming to the district was to dedicate our church at Marble. This church is a beautiful building, costing approximately \$3,500. It was dedicated free from debt, excepting the loan from our board of home missions and church extension. On Sunday, Feb. 8, the church at Mora was reopened, or, in reality, dedicated. The old building cost about \$1,900, while the improvements cost \$4,500. This church was practically made over in every respect. All indebtedness was provided for on the day of dedication, and the pastor, Rev. W. G. Boyle, and his people were very contented and happy. Easter Sunday marked a great event in the history of the new church, which was dedicated to the service and worship of Almighty God. Crowds packed the house morning, afternoon and night, and \$5,000 was raised by subscription, which was a record for the district. The building cost about \$8,000. Rev. D. B. Hanscom is pastor and figured very largely in bringing this proposition to a successful issue.

"The church at Bow was dedicated on Sunday, July 12. Barrows is a little town south of Brainerd, which was depending entirely on a single mining proposition. About two weeks before the dedication this mine closed and the town was immediately depopulated. Our own people, with the exception of a few, naturally went away. You can imagine the spirit of disappointment and discouragement prevailing in the community, in view of the day of dedication, the few people left in the community rallied and the church was presented to the Lord practically free from debt. We expect some day, when conditions become normal, this will be a great church. Meadowlands is a town where the Union church corporation was approaching completion, and which had cost approximately \$1,700. The Marquette church, which was accepted the offer at once, paid the \$500 in cash and provided for the balance by subscription. We then proceeded to finish the building, which cost about \$700. On Sunday, Sept. 20, this handsome new church was dedicated entirely free from debt. Brother C. W. B. Ellis contributed effectively to this proposition.

"The Gary church was practically completed last year, so far as the building was concerned, but a debt of \$1,900 was carried over into this year. This amount has been paid, and the church is now free from debt. It has not yet been dedicated. The closing down of all operations at the great iron plant has, for the time being, paralyzed the work at this point. When the war is finished and the steel corporation is assured of pennies enough to operate on a dividend-paying basis, the plant will be opened and great multitudes will fill this portion of the city, and the Gary church will become a very active and a very successful society. In that case I might hazard the statement that the church would be dedicated to the worship of Almighty God.

**New Church at Aitkin.**  
"Aitkin has been looking forward for some time to erect a new church building for several years. This proposition was brought to a successful issue. A most beautiful church is just being finished, and will be ready for dedication about the first Sunday in November. Bishop Quayle was present at the laying of the cornerstone of this church in May, and delivered two fine addresses. This church when finished and furnished, will cost \$15,000. An outburst of it will be presented for divine worship free from all indebtedness. Brother A. L. Richardson is the pastor and the church will be dedicated to the worship of Almighty God.

**Church at Woodland.**  
"A new church corporation has been projected in the city of Duluth, namely the Woodland Methodist church. This corporation has secured lots in the Colman addition, in the Woodland district, whereon they expect to begin the erection of a new church immediately. The following amounts have been paid, and improvements made: Improvements—Aurora, \$175; Barnum, \$275; Brookport, \$100; Deerpark, \$100; River, \$200; Deerwood, \$100; First Church, Duluth, \$7,500; Grace church, Duluth, \$100; Lester Park, Duluth, \$200; Ely, \$150; Pineauville, \$150; Floodwood, \$100; Hibbing, \$150; Hixson, \$100; McGregor, \$400; Mountain Iron, \$450; Onamia, \$100; Pine River, \$200; Two Harbors, \$24; Wagon, \$100; Debs-Hinckley, \$300; Nashua, \$150; Endon, Duluth, including interest and payment, \$172; Lester Park, Duluth, interest and payment, \$172.

"Endon church, Duluth, under the leadership of Dr. W. F. Hovis, is making tremendous strides. It is now one of the leading churches in the conference, and in the near future is destined to be one of the great Methodist churches of the country.

"One year ago, when Dr. M. S. Rice, who had served First church, Duluth, for nine years, announced his decision to sever his pastoral relation there, the clock in the estimation of the congregation struck 12, midnight. They said, 'Our doom is sealed, the sun has gone down; the light is out!' They said down deep in their hearts, 'Grace is gone, what is the use?' Sighing, and sorrowful faces were on every hand. Finally they aroused themselves from their benumbed and stunned condition and selected from the dark and dingy, and coal-begrimed city of Pittsburg, one Rev. Dr. John W. Hoffman as their pastor. As a result of this selection, one of the most successful years in the history of the church has been enjoyed. The budget of this church, including improvements, has been \$5,000 heavier this year than in any other year in the life of the institution. Also, they have provided, by subscription, a part of which has been paid, an indebtedness of \$22,000, which was against a piece of real estate held by the corporation adjoining the church property. The fact is, Dr. Hoffman is a 'corner' man—a 'corner'—and he is decidedly a winner.

**The Deacons Home.**  
"The Deacons Home still stands on the hill. It is less conspicuous than formerly in the thought of the people, because of the fact that a couple of mortgage plasters have been removed, and some striking improvements have been made. All the Methodist people of Duluth have not been able to contain themselves. Home, Sweet Home! As all innovations from the routine life relating themselves properly and harmoniously, so this home met with its successes and difficulties in finding its place, and being able to inject its force and vitality in a sensible, judicious and effective manner into the life of the church in the city, as a whole. However, success has come! harmony prevails; efficiency is being developed, and we look confidently forward to this institution as becoming one of the great sources of spiritual power in Duluth Methodism."

Cuba's exports of pineapples are almost entirely to the United States. Owing to the strike in Havana harbor, much of the 1912 crop rotted before it could be shipped.

are sources of real power and spiritual uplift to the churches in which they are organized, and properly directed, they are a pronounced success and much harmony is generated and much back by the delegates to their individual leagues, which argue well for the future of this institution.

This amount has been paid, and the church is now free from debt. It has not yet been dedicated. The closing down of all operations at the great iron plant has, for the time being, paralyzed the work at this point. When the war is finished and the steel corporation is assured of pennies enough to operate on a dividend-paying basis, the plant will be opened and great multitudes will fill this portion of the city, and the Gary church will become a very active and a very successful society. In that case I might hazard the statement that the church would be dedicated to the worship of Almighty God.

**New Church at Aitkin.**  
"Aitkin has been looking forward for some time to erect a new church building for several years. This proposition was brought to a successful issue. A most beautiful church is just being finished, and will be ready for dedication about the first Sunday in November. Bishop Quayle was present at the laying of the cornerstone of this church in May, and delivered two fine addresses. This church when finished and furnished, will cost \$15,000. An outburst of it will be presented for divine worship free from all indebtedness. Brother A. L. Richardson is the pastor and the church will be dedicated to the worship of Almighty God.

**Church at Woodland.**  
"A new church corporation has been projected in the city of Duluth, namely the Woodland Methodist church. This corporation has secured lots in the Colman addition, in the Woodland district, whereon they expect to begin the erection of a new church immediately. The following amounts have been paid, and improvements made: Improvements—Aurora, \$175; Barnum, \$275; Brookport, \$100; Deerpark, \$100; River, \$200; Deerwood, \$100; First Church, Duluth, \$7,500; Grace church, Duluth, \$100; Lester Park, Duluth, \$200; Ely, \$150; Pineauville, \$150; Floodwood, \$100; Hibbing, \$150; Hixson, \$100; McGregor, \$400; Mountain Iron, \$450; Onamia, \$100; Pine River, \$200; Two Harbors, \$24; Wagon, \$100; Debs-Hinckley, \$300; Nashua, \$150; Endon, Duluth, including interest and payment, \$172; Lester Park, Duluth, interest and payment, \$172.

"Endon church, Duluth, under the leadership of Dr. W. F. Hovis, is making tremendous strides. It is now one of the leading churches in the conference, and in the near future is destined to be one of the great Methodist churches of the country.

"One year ago, when Dr. M. S. Rice, who had served First church, Duluth, for nine years, announced his decision to sever his pastoral relation there, the clock in the estimation of the congregation struck 12, midnight. They said, 'Our doom is sealed, the sun has gone down; the light is out!' They said down deep in their hearts, 'Grace is gone, what is the use?' Sighing, and sorrowful faces were on every hand. Finally they aroused themselves from their benumbed and stunned condition and selected from the dark and dingy, and coal-begrimed city of Pittsburg, one Rev. Dr. John W. Hoffman as their pastor. As a result of this selection, one of the most successful years in the history of the church has been enjoyed. The budget of this church, including improvements, has been \$5,000 heavier this year than in any other year in the life of the institution. Also, they have provided, by subscription, a part of which has been paid, an indebtedness of \$22,000, which was against a piece of real estate held by the corporation adjoining the church property. The fact is, Dr. Hoffman is a 'corner' man—a 'corner'—and he is decidedly a winner.

**The Deacons Home.**  
"The Deacons Home still stands on the hill. It is less conspicuous than formerly in the thought of the people, because of the fact that a couple of mortgage plasters have been removed, and some striking improvements have been made. All the Methodist people of Duluth have not been able to contain themselves. Home, Sweet Home! As all innovations from the routine life relating themselves properly and harmoniously, so this home met with its successes and difficulties in finding its place, and being able to inject its force and vitality in a sensible, judicious and effective manner into the life of the church in the city, as a whole. However, success has come! harmony prevails; efficiency is being developed, and we look confidently forward to this institution as becoming one of the great sources of spiritual power in Duluth Methodism."

Cuba's exports of pineapples are almost entirely to the United States. Owing to the strike in Havana harbor, much of the 1912 crop rotted before it could be shipped.

Opens Friday**

But the display is ready today—so we'll invite you to come in tomorrow and see it. Look for the ad in this week's Saturday Evening Post.

The modes of the fall season as expressed by Wooltex coats, suits and skirts are refined, graceful and wonderfully artistic.

While the straight line effect is definitely in vogue, many of the garments are tailored to produce the pleasing ripple effect, that is another characteristic of the season.

The materials used are beautiful in weave, and the color effects are exceptionally charming.

The assemblage of Wooltex coats, suits and skirts which we are now showing will make a visit to our store a very definite pleasure at this time, and we cordially invite an inspection.

Come tomorrow—ahead of the crowd!

What a cosmopolitan crowd this is! One can hardly talk about these people without drifting into a foreign missionary speech. We have within the bounds of the Duluth district about 350,000 people, and I should think it would be entirely safe to say that at least 250,000 of them are foreigners. What tremendous menace this is to the moral and spiritual life of this immediate territory. Can the home-grown product, or the native-born citizen overcome and assimilate and assimilate? Shall we be able to stem the tide, and inject the thought of God into the hearts and minds of these incoming thousands, and still maintain the high standards of our Christian institutions. Sometimes when I am out on the ranges and take the electric car on the Sabbath day, I discover that the car is crowded to the limit. Carefully noting the personnel I further note that they are practically all for-

## CANADIAN NORTHERN WILL BEGIN NO NEW CONSTRUCTION

Content to Complete Work Now Under Way, Says Sir William.

Money Tight But Crops Big; New Line to Coast for Duluth.

Sir William Mackenzie, president of the Canadian Northern railway, together with Mrs. Mackenzie, M. H. McLeod, general manager of the road; J. R. Cameron, assistant general manager, and Sir William Mackenzie's secretary, arrived in Duluth yesterday.

afternoon in the president's private car. President Mackenzie's car was attached to the regular Chicago train on the Northwestern road later in the afternoon. From Chicago the Canadian Northern officials will go direct to Toronto.

"More grain has been moved in Canada this season than was moved during a similar period a year ago," said Sir William. "It would put the amount of increase in tonnage at 25 per cent. War has made money extremely difficult to secure and has deeply affected business, but it has not interfered with the moving of the wheat crop, as other railroads of the Dominion, as well as the Canadian Northern, will show a substantial increase in tonnage records."

The Canadian Northern company will make no immediate beginning in the construction of ore docks at the Head of the Lakes. Sir William conveyed this information.

No Ore Docks Now.

"There will be nothing done on the construction of ore docks here at this

time," said he. "At the present time we are making no new moves. By the way, how is the war?"

Sir William stated, in brief, that the present time was not one conducive to expansion or new projects, and that for the time being the Canadian Northern would be well content with completing work under way.

"The British Columbia branch of the Canadian Northern will be completed shortly after the first of the year," he said. "Trains will be running by spring. This will give Duluth another transcontinental line. Just how this will affect this city, I cannot say. I suppose that the construction of a new railroad is influential in increasing the business of the city. It means, at least, that Duluth is on another big transcontinental line."

"While business is feeling the war, and money is hard to get, the Canadian crop has been large and has been speedily handled and marketed early over the Canadian Northern system, and outside of the conditions artificially created by the war, have found the general run of things in good shape."

Sir William, Lady Mackenzie and several other members of the party were taken for a drive around the boulevard during the afternoon.

## GERMANY SEIZES CIGARETTE PLANTS

Majority of Stock Is Owned in England, Is the Reason.

Berlin, Sept. 30, via London.—Two cigarette factories in Germany—the Jasmatt concern at Dresden and the Baischer factory at Baden-Baden—owned by the Anglo-American Tobacco combine, have been placed under government control for the reason that the majority of the capital is held in England.

According to the Lokal Anzeiger, Prince Franz, son of the King of Bavaria, who has the rank of major general and is in command of the second Bavarian regiment, has been slightly wounded in the thigh. He is now on his way to Munich.

Prince William of Hohenzollern, whose daughter is the wife of Manuel, former king of Portugal, has been decorated with the Order of the Iron Cross, first and second class.

## RELIEF COMMITTEE TO LEAVE SWEDEN.

Stockholm, Sweden, Sept. 30, by way of London.—The American relief committee, including Capt. Schindler, Capt. Colvin and Lieut. Phillips, have left here to join the American cruiser Tennessee in England. Stockholm has been the clearing house for Americans stranded in Russia and in this work as well as that of assisting the American legation the committee has been kept busy; but the rush is now over and the work of relief has been taken over by American Consul General Ernest L. Harris.

## CLEMENCEAU AVOIDS PAPER'S SUPPRESSION.

Toulouse, France, Sept. 30, via Bordeaux.—Former Premier Georges Clemenceau has succeeded in evading the suspension order against his newspaper, L'Homme Libre, by changing the name to L'Homme Enchaîné ("The Man in Chains"). The paper was published yesterday.

The article which resulted yesterday in an order of suspension for eight days is a mild appeal for the preferential treatment of German Alsatian prisoners.

## JAPS HOLD SMALL CHINESE HARBOR.

Tokio, Sept. 30.—It is officially announced that a portion of the Japanese fleet has landed a force which has occupied Lac Che harbor, in the neighborhood of Tsing Tau. They took four field guns abandoned by the Germans and afterwards held the place with a small part of the force.

## WILL REPORT ON CITY PLANT

Public Affairs Committee Will Discuss Problem Monday Night.

The position of the public affairs committee of the Commercial club on the city's plan for a municipal electric lighting plant is expected to be given next Monday night, Oct. 5, when the committee holds its first meeting of the season. There will be a dinner at 6:15 and the business session will follow.

There will be the usual committee reports in addition to the report of the municipal committee on the city plan's proposition. This is considered the most vital problem now before the city, and the Commercial club does not plan any definite action until after the question has been thoroughly discussed. Every member of the committee is urged to attend and express his views.

The committee now preparing this report consists of: A. T. Banning, Jr., chairman; Frank Crossweller, Bert Keeler, W. B. Getchell, Charles J. Enger, H. Cook, George W. Morgan, John Christie and Floyd M. Fuller.

## DIES AT FERGUS FALLS.

Frank Fink, Former Duluthian, Succumbs to Diphtheria.

Frank Fink, aged 29 years, formerly of this city, died at Fergus Falls, Minn., of diphtheria last Monday. Information regarding his death has been received by relatives in Duluth. He was well known in the city, having been a member of the naval

reserves and an employee at the Kitchi Gammi club.

Besides his parents he is survived by two sisters and one brother, Mrs. G. J. Ebner, Portland, Or.; Mrs. L. W. Goo, Duluth; and Anthony Fink, Duluth.

The funeral will be held at the Crawford undertaking parlors at 9 a. m. Thursday.

## BELGIAN OUTRAGE TOLD FROM BERLIN.

Berlin, Sept. 30, by wireless to Sayville, L. I.—A story given out in Berlin.

"During a sortie from Antwerp, Belgian troops occupied the village of Linden, near Frankfort, on the Dutch border. The Dutch family of Van Blankenhagen, the members of which had at their own expense, transformed their residence into a hospital. Forty wounded Belgians were being constantly nursed at the chateau, over which flew the Red Cross and Dutch flags by members of the Van Blankenhagen family."

"In spite of these facts the Belgians set fire to the village of Linden and burned down the chateau. The act was the result of their hatred of the Dutch, whom they wrongly accused of having permitted German troops to cross Southern Limbourg."

"Russians are described as having stolen the famous private library of works on art from the castle of Prince Ostolinski in Lemberg. It is said that they carried the booty to Petrograd."

## COL. GORDON OF THE HIGHLANDERS LIVES.

London, Sept. 30.—Col. W. E. Gordon of the Gordon Highlanders, an aide de camp to King George, who has twice officially been reported killed, is a prisoner in Germany and in good health. This news was conveyed to the British war office through the American ambassador at Berlin, James W. Gerard.

Col. Gordon, who won the Victoria Cross in the Boer war, was in command of the Gordon Highlanders early in September, when they were surprised. They advanced toward a German detachment in the mistaken belief that it was a French picket, and many of the two bodies were shot down. One of the regiment who escaped, said he had seen the body of his colonel among the dead.

## "GERMAN SOLDIERS CRAZED BY HUNGER."

London, Sept. 30.—According to a Rotterdam dispatch to the Daily Mail, private information from Berlin says that before the retreat to the western frontier, the German commissariat broke down completely. For a fortnight a majority of the Germans lived on bread and water. So great was their suffering that large numbers entered the hospitals with nervous breakdown and many became insane.

## BERLIN SAYS TWO OF PRINCES ARE SICK.

Rome, via London, Sept. 30.—An official statement issued in Berlin and received here says:

"Prince Oskar, who has before been reported as ill in a hospital at Hamburg, is pronounced by specialists to be suffering with a heart affection from which he will recover, but it is said he must not resume his place at the front, as he could not stand the strain."

"Prince Joachim, who was wounded recently, is expected to be able to return to the front in October. The other sons of the emperor are all well."

## REFUGEES KILLED BY GERMAN SHELLS.

London, Sept. 30.—The correspondent of the Post at Antwerp, telegraphing regarding the attack on the outer forts there, says:

"The bombardment of our outer forts, which developed Tuesday, had a lamentable result at Duffel, ten miles south of Antwerp, where a crowd of refugees was at the station awaiting a train in which to leave the shell area. Twenty German shells fell into the station and the crowd of refugees,

## TRAVELING LIBRARIES GAIN DURING YEAR.

Bismarck, N. D., Sept. 30.—(Special to The Herald.)—The number of traveling libraries in the state has increased from 27 to 53 in the past year, according to the report of Mrs. Minnie Rudlong, state librarian, which has just been filed with Governor L. B. Hanna.

Mrs. Rudlong shows that there has been a very great increase in the number of persons taking advantage of the state library, the number of books loaned totaling 7,250, and out of that number only thirty-seven books have not been returned. This, too, in face of the fact that the state does not demand a guarantee fund.

### A TIME FOR CAREFUL GOING.

Commissioner Voss does well to call the attention of the city commission to its failure as yet to put the city on a cash and pay-as-you-go basis. He cannot do so too often or too pointedly.

The instance he names, the permanent improvement fund, is a striking example of what ought not to be in city finances, particularly at this time when, because of the tremendous waste of war, the world is entering upon a prolonged period when capital must be husbanded with extraordinary care.

The deficit in the permanent improvement fund is a heritage from the old form of government. But where many commission governments have promptly wiped out these heritages of debt, Duluth's commission government not only has failed to wipe out this deficit, but has increased it.

Moreover, it is still increasing it. Last year the deficit was eighty thousand dollars, and the commission solemnly decided to reduce it this year to sixty thousand, with the wise object of obliterating it in four yearly installments.

Instead of carrying out this excellent decision, as Commissioner Voss pointed out to the commission, it has further increased it so that at the end of this year it will be at least ninety thousand, if not a hundred thousand.

When the war is over and the world settles down to the long struggle to repair its wastes, those who are solidly on a cash basis of sound financing will be the easy ones—cities included. Those in debt from careless financing may have trouble—cities included.

The deficit in the permanent improvement fund is due, apparently, to too eager rapidity in making permanent improvements. There was good argument for all of them. There is good argument for still more. But if the present pace of improvement means continuing and increasing this deficit, then of course the pace must be slackened. The city commission can devote its energies to no better purpose than putting the city, in all its departments, on a solid financial basis as quickly as possible. "It is not there now."

No doubt the football enthusiast sees in the operations of the aerial corps only a military application of the principle of the punt.

### THE WAR FROM DAY TO DAY.

Save that the situation in the East is assembling itself into slightly more tangible form, the censored news from the war gives little enlightenment. Yet, censored though it is, as we said yesterday it is doubtful if uncensored reports from every part of the battle field would clear matters much. They would be more unbiased, more lucid, more thrilling; but the completest reports imaginable cannot furnish news of a decision until the tide of battle produces a decision.

The exciting rumor of the German right wing in full flight, allies blithely pursuing in automobile joy-ride, turns out not to be true.

On the left, the allies are still trying to turn the German right, and the Germans are still striking back savagely to prevent the success of this movement. Lately the Germans have made a stubborn attempt to break the allied ranks that are engaged in the turning movement, but apparently "without decisive result"—a phrase much in use these days, and applying to the heroic and bloody efforts of both sides. Of course everybody understands that the hope of the allies in their turning movement is to get behind the army of the German right, cut off its communications, separate it from the rest of the German line, and destroy it.

At St. Mihiel, in the eastern end, on the line from Verdun to Toul, the French force manifestly has been bent westward at the point where the German attack crossed the Meuse, and the French are making a great effort to force the Germans back over the ground they have gained.

If Przemysl (Pronounced Pzhemysl)

has been invested, as reported, very likely it will be possible to leave a holding force there while the main force joins the Russian attack on Cracow. If the same thing can be done at Cracow, it will doubtless be done at present Russia needs only to get by these places and deprive them of capacity of harm to her flank. Slowly but surely there is developing along the German-Russian frontier a giant battle-line from Thorn in West Prussia through Kalisz in Russian Poland to Cracow in Austrian Poland or Galicia, and presently we shall hear little of affairs in East Prussia or Galicia, the points first attacked by the Russian hordes, but much of an attack aimed at Berlin all along the line, opposed by all the forces that Germany and Austria can array along the border.

There is no longer doubt that Russian troops have slipped through the Carpathians and are overrunning the Hungarian plains, though in what numbers is not discoverable, or with what object; unless the czar, as we well may be, while thinking dutifully of the march on Berlin is also thinking, rather more incidentally, of having as much Austro-Hungarian territory under his control as possible when peace is forced.

Which would you rather be—a private in Europe or a president in Mexico?

### A BAD FLAW IN THE PATENT LAW.

The failure of the German supply of aniline dyes calls attention again to a flaw in the patent laws which The Herald has often pointed out—their failure to require that patented articles and processes be put to use within a reasonable time.

Heretofore the complaint against this law has been that it enabled monopoly to buy up and throttle patents that, if put to use, might benefit the people.

The war situation opens up a new angle of criticism.

Most, if not all, of the aniline dyes in use in this country come from Germany. The war, of course, has stopped this source of supply.

But these dyes are patented not only in Germany, but in the United States.

In Germany the grantee of a patent must put his patented article into use within three years, or forfeit his patent.

In this country a man who gets a patent keeps it, no matter whether he makes use of it or not.

An inventor creates a device that will be of universal usefulness and value; that will lower the cost and increase the comfort of living; that will compete with and destroy some existing article that is far inferior.

But if the manufacturer of the existing article buys up this patent and stows it away in his safe, there's an end of it.

And it is said that there are thousands of patents so housed up idle and useless in corporation safes.

For years there has been a demand for a "working clause" in our patent laws—a clause that will require owners of patents to put them to use or forfeit their rights.

The war-created situation in aniline dyes emphasizes once more the need of this clause.

At last there has been found a kind of conflict that is as fruitful of verbal claims as pugilism.

### THE NEED OF A FEDERAL EMPLOYMENT BUREAU.

The New York commission on unemployment has found that out of every ten wage earners, only about six work steadily through ordinary years.

Four out of the ten have to change places at least once, and probably many times during the year.

Only thirty per cent of America's wage earners, then, are steadily employed. Forty per cent are engaged in types of labor that call for frequent changes of employment. And this situation is more far reaching than it seems, because the forty per cent who are laid off are not always the same each year, so that this forty per cent of unemployment is distributed among many more than forty per cent of the workers.

This information was laid before the house committee that is studying the several bills for the creation of a Federal employment bureau; and there is where it belongs.

It is not alone in the interest of the worker that the periods between jobs should be made as short as possible, and that the worker no longer needed on one job should be transferred to a new one as quickly as may be. The instincts of humanity should be motivated enough for public activity to these ends; but it is not necessary that it should be left upon that basis. For it is no less society's interest than the worker's that labor should be kept steadily employed. Society wants its workers steadily employed because then they can better support families and rear their children to be good citizens. Society wants the workers steadily employed because it needs the results of their toil.

Much common labor is of such a

character that steady employment is impossible. Railroad work, lumber work, construction work of all kinds is begun and finished within a definite and usually short period. And when a job is finished, the men engaged in it are released. They must then seek other jobs.

The purpose of a Federal employment bureau would be to act as a clearing house for the distribution of labor; to keep track of the available supply of men and the available supply of jobs and to bring them together. Working through state and local free employment bureaus—if necessary through private employment bureaus—a Federal employment agency could accomplish great good.

The industrial commission now at work has already discovered that the ranks of trampdom, hobodom and yeggdom are regularly recruited from this forty per cent of shifting labor. Failure to connect promptly with a job leads to discouragement, drink, shiftlessness; then the man becomes a tramp, a drunkard or a thief.

In the interests of humanity, in the interests of the worker, and in the broad interests of society itself, the creation of an efficient Federal employment bureau is amply justified.

And whatever form it takes, the use of the postoffice department, which reaches every nook and cranny of this great country, should be included in its provisions.

Another question would be whether a city electric plant would be sure enough of bearing fruit so we could depend on getting currents from it.

### Abraham Lincoln's Call to Prayer

Oswald F. Schuetz in Leslie's Weekly.

Oswald F. Schuetz in Leslie's Weekly: On March 30, 1863, at the request of the senate of the United States, when the state of the nation was dark and our armies were sorely beset, President Lincoln issued a proclamation for "a day of national humiliation, prayer and fasting." Again when the darkness of battle was added the uncertainty of the political conflict in the North, it was not only the president that called upon the nation to pray, but "the senate and the house of representatives of the United States, congress assembled." On July 7, 1864, President Lincoln issued a memorable proclamation in which he said:

"Whereas, the senate and house of representatives, at their last session, adopted a concurrent resolution which was approved on the second day of July in

now, therefore, I, Abraham Lincoln, president of the United States, cordially concurring with the congress of the United States in the patriotic and pious sentiments expressed in the aforesaid resolutions, and heartily approving of the devotional duties and purposes thereof, do hereby appoint the first Thursday of August next a day of national humiliation and prayer.

"I do hereby further invite and request the heads of the executive departments of this government, together with all judges, all judges and magistrates, and all other persons exercising authority in the land, whether civil, military or naval, and all soldiers, seamen and marines in the national service and all the other loyal and law-abiding people of the United States, to assemble in their respective places of public worship on that day, and there to pray for the success of our arms, for the peace of the Union, and for the restoration of the Union, and to offer to him such supplications, as he may deem proper, and to observe that day with solemnity, so earnestly, and so reverently remembered."

Nor were President Lincoln's proclamations of thanksgiving for victories less humble than his call to prayer. After the victory of Gettysburg and Vicksburg he proclaimed Aug. 6, 1863, as a "day of national thanksgiving, prayer and fasting."

For years there has been a demand for a "working clause" in our patent laws—a clause that will require owners of patents to put them to use or forfeit their rights. The war-created situation in aniline dyes emphasizes once more the need of this clause.

At last there has been found a kind of conflict that is as fruitful of verbal claims as pugilism.

### THE NEED OF A FEDERAL EMPLOYMENT BUREAU.

The New York commission on unemployment has found that out of every ten wage earners, only about six work steadily through ordinary years.

Four out of the ten have to change places at least once, and probably many times during the year.

Only thirty per cent of America's wage earners, then, are steadily employed. Forty per cent are engaged in types of labor that call for frequent changes of employment. And this situation is more far reaching than it seems, because the forty per cent who are laid off are not always the same each year, so that this forty per cent of unemployment is distributed among many more than forty per cent of the workers.

This information was laid before the house committee that is studying the several bills for the creation of a Federal employment bureau; and there is where it belongs.

It is not alone in the interest of the worker that the periods between jobs should be made as short as possible, and that the worker no longer needed on one job should be transferred to a new one as quickly as may be. The instincts of humanity should be motivated enough for public activity to these ends; but it is not necessary that it should be left upon that basis. For it is no less society's interest than the worker's that labor should be kept steadily employed. Society wants its workers steadily employed because then they can better support families and rear their children to be good citizens. ### Two Ways to Lower Prices

Editorial in the San Francisco Bulletin.

When the land pirates who have depopulated the land of supply and demand took advantage of the war in Europe to pick our pockets, rob our children's banks and take us for the second time a lump in our coffee there was sudden and natural indignation, and a hasty discussion of remedies.

"Put them in jail," said the Dognatist, who believes that customs, habits and institutions are all right, though men are sometimes bad. "Put a few of them in jail and then watch prices come down." All you have to do is to scare those fellows a little and then they'll stop gouging us.

"But," objected the Heretic, who leans to the belief that men are pretty good, when they get a chance, to be, but that the arrangements they have to work under sometimes play the deuce with their sense of moral values, "you can't put those fellows in jail, because they're so numerous that you'd have to put a few sugar magnates into fits, or even putting them behind bars and dressing them in slate-colored pants, and taking away their hats, and their four pounds in a dollar's worth of sugar? You know, we've passed laws against vagrancy, but unemployment still continues. We've passed laws against immorality, and men still run away with other men's wives. We've passed laws against truancy, and still a greater crime to steal a loaf of bread than it is to break the Sherman law. The price of oil come down when the Standard Oil corporation was busted? It did not. It went up.

"What's the use of that?" said the Dognatist, "those fellows ought to go to jail. What else are you going to do? Slap 'em on the wrist and say 'good'?" "I'll tell you," said the Heretic. "Our idea is that as long as you allow private interests to make money out of people's necessities, and a lot more money at that; more than the most ardent of burglars or embezzlers ever gets hold of—it won't do much good to pass laws to punish those who take advantage of the opportunity. You know as well as I do that we won't get rid of the problem of the courts wouldn't send the head of a hundred-million-dollar corporation to jail. We're just bluffing when we pretend that the world would be so terribly shocked if a man who lives in a palace and has valets to wait on him had to go to jail for a few days for a petty burglary. Besides, as Stitt Wilson says, it would be a bad influence on the burglar."

"No," the Heretic proposes to do is to use the power of the government to play the same game that these forestallers are playing. To play for the good of the people instead of for private profit. The only reason private business is allowed at all—and this is not only the president that called upon the nation to pray, but "the senate and the house of representatives of the United States, congress assembled." On July 7, 1864, President Lincoln issued a memorable proclamation in which he said:

### The End of Kaisers

Oswald Garrison Villard in the Review of Reviews.

The masses of the Kaiser's empire! To them surely the sympathy of the world must go out as to the poor Belgians who have died about idles without knowing why, realizing only that a hell of shot and shell had burst without warning upon them as lightning from the sky. On the heads of the German masses lies not the blood of the Kaiser, but the blood of the Kaiser's empire. The Kaiser is a man, a mortal, a creature of the flesh and blood, the vine-clad banks of the Rhine, the plains of Prussia, the poppled fields of Bavaria. They and their kind have been rising steadily against fearful odds, helped on by favorable social legislation, held back by the heavy taxes imposed by the military Moloch, and by their three years of army service, hampered in the cities by grinding poverty and checked everywhere by iron castles. Their villages have only been a nation to grow, to give signs of development corresponding to that of the cities; to them have come at least the harbingers of social justice; something of the prosperity of the nation was beginning to be theirs. But now the mother of every son between 19 and 24 years must kneel and pray for the firing line, to destroy the sons of some other mother—because the Kaiser's empire is a nation, a creature of the flesh and blood, the vine-clad banks of the Rhine, the plains of Prussia, the poppled fields of Bavaria. (Readers of The Herald are invited to make free use of this column to express their views about the topics of general interest, but discussions of sectarian religious differences are barred. Letters must not exceed 500 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied by the name and address of the writer though these need not be published. A signed letter is always more effective, however.)

## SURELY NOT.

To the Editor of The Herald: I am sending the song "Subscribers" requested. I think it is the one wanted.

"Just behind the battle, mother I am eating Irish stew. I have eaten all the meat, mother. And I've left the bones for you. Do not fear, my dearest mother. That death will claim you only soon. For 'tho' I cannot fight, dear mother, Bet your sweet life I can run.

"Just behind the battle, mother, For men charge the living day. Glad they didn't charge me, mother. For when I'm charged I never pay. Sheila hit me, mother, darling; Wish you'd heard my frantic yell; Wish you'd heard me, dear mother, For they were only peanut shells.

"Just behind the battle, mother, Deep I am in a gory scene. I have just assassinated Fourteen cans of pork and beans. And all its horrors, mother, Ne'er unsettle my eating plans. And when I've eaten all the beans, Mother, I'll present you with the cans.

"Just behind the battle, mother, Roar of cannon I can hear. While the boys fight at the front, mother, Pork chops I'm fighting in the rear. Worry not nor think you'll find me With those maimed and slaughtered men. For if I should get killed, dear mother, You'd have no son to work for then.

"Just behind the battle, mother, A pension I'm drawing now. Laurel wreaths for bravery, mother, Decorate my classic brow. The reason I've been honored, mother, You will very plainly see. Thousands of the enemy, mother, Dropped dead, exhausted, chasing me.

"Just behind the battle, mother, That's the safest place to be. Getting killed and slaughtered, mother, Never did look good to me. When the enemy approaches I beat it, hike and fade away, For I'd rather be a live bum, mother, Than a dead hero any day."

Dear Editor: Will you please publish a request from me? I would like to obtain the songs "Farewell, Sweetheart, May" and "Little Boy Called Taps." Your truly, SUBSCRIBER.

## INSPECTING SCALES.

To the Editor of The Herald: "Oh, where, and oh, where" is our city scale? The scales in a store may be correct and comply with all the requirements of the city, county and state. But what about the man back of them; who regulates him and how often, and what is a person going to do when he gets 20 per cent less of an

article than what he pays for? If you ask for the missing 20 per cent, the proprietor insinuates that you are trying to beat him out of a couple of cents worth of goods.

There is no Duluth city scale and the state has no representative here. The merchant with unfair intentions is free to do as he pleases without fear of being reported, as there is no one to report him to here. I do not mind the few pennies in such transactions, but to be "worked" so easily makes me feel like an "easy mark." Who likes to be an "easy mark"? The only recourse one has is to do as I do, and in such a place, but that does not help the next fellow who deals there, does it? Kindly let me know through your valuable column who such matters can be taken up with in Duluth.

Duluth, Sept. 28. AN EAST ENDER.

The state has a representative here, J. H. Nordby, of 1508 East Sixth street. —The Editor.

## AS HE SEES IT.

To the Editor of The Herald: In these days of war prices, would like to express my opinion from a workingman's standpoint. For some reason or another I have been unable to secure an opinion from several Duluth-made articles than for one manufactured elsewhere. Last summer I was working on the ranges and I purchased a Duluth-made machine for \$2 less than I can get the same here in Duluth. In talking to my butcher here I received the information that he got his meat at wholesale sale at practically the same figure from all packers, and when I asked my butcher here in Duluth why he did not handle meat dressed in Duluth, he said he could do better with a branch of a Chicago packing house.

The other day a department store was out of a certain article and I received the information that if I would call later in the day they would have it for me, but when I called at the wholesale house I was told that if I was not in business or a manufacturer I could not purchase from them. It made no difference what quantity I wanted to buy. Of course I could get some employe to get it for me, but I prefer asking for what I want and paying for it in a straightforward manner.

Now, fellow workmen, wake up. Shake the load off your back. Feed your own children and families. Get rid of the middle man that produces nothing, in the only way possible—through just legislation by men elected by you, that will work for government control of these places that tell you that you must let the other fellow milk your cow and then give you part of the milk.

Duluth, Sept. 27. TOLIER.

## THANKS, KIND LADY.

To the Editor of The Herald: Here's that recipe for pickled red cabbage, copied from the New Dixie Cook-Book, 1895. Procure nice head of red or purple cabbage, pull off leaves, slice fine, pack in a stone jar, sprinkle through well with salt and let stand twenty-four hours. Prepare vinegar as follows: To a gallon, add an ounce each mace and pepper corns and a little mustard seed. Drain cabbage, put back in jar, add vinegar and spices and pour over, repeating the scalding two or three times and cover jar very tight. When done, the

cabbage will be a handsome red color, very ornamental. It will be fit for use in a week or two; if kept very long the cabbage is liable to get soft and discolored. For this reason only a small quantity should be made at a time.

Or with peppers, chop fine two-thirds firm red cabbage and one-third green peppers, removing seeds of the latter. Pour a weak brine over one gallon of the mixture, let stand twenty-four hours, drain well and add tablespoon each whole cloves and ground cinnamon, half cup black mustard seed and a few pepper corns. Mix well, put in stoneware and pour boiling vinegar to cover, to which a little sugar may have been added, if wished. Some do not soak in the brine, but add two tablespoons of salt with the spices. Keep in a cool place. M. A. B. Duluth, Sept. 29.

## IMPROVEMENT ON SOCIALIST PLAN.

To the Editor of The Herald: I have read with great interest all that you have printed anent the Socialist plan to stop the war in Europe by cutting off the food supplies. To my mind this is an admirable plan, but, like all good things, it can be improved.

At the best, starvation is a slow and somewhat unpleasant process. There can be no doubt as to its efficacy or the permanency of its results; but what is needed at the present moment is speed. So I suggest to the followers of the red flag that instead of stopping the exportation of flour, they allow it to keep on, but insist that with it be incorporated some cheap and efficient poison, such as arsenic. Of course, there is a great deal to be said as to the merits of cyanide, but owing to the fact that arsenic is unpalatable to persons with weak stomachs, I would suggest the former. Then when the families of the belligerents have ceased to exist, there will be nothing to fight for, and the war will stop of itself.

It is a pity that Nana Sahib, the gentlemanly and urbane Demon of Cawnpore, is no longer living. He had the makings of a great modern Socialist. Respectfully, E. ROE. Duluth, Sept. 28.

## CANADA WILL FISH WHEN SHE PLEASURES

Boundary Waters Agreement Never Ratified By U. S.

Ottawa, Ont., Sept. 30.—Owing to the failure of the United States to approve regulations governing the taking of food fish in boundary waters, the Canadian government is about to serve notice that it resumes its liberty of action.

A treaty between the two countries was signed six years ago for the appointment of a joint commission to frame fishing regulations applicable to boundary waters from the Atlantic to the Pacific. Dr. David Starr Jordan, representing the United States, and Prof. Prince, representing Canada, agreed upon a set of regulations. Canada, however, failed to do so, owing chiefly, it was said, to objections from Great Lakes fishermen. Canada gave notice that unless the regulations were approved at the next session of congress, Canada would resume liberty of action. The change of administration in the United States influenced Canada to delay at that time.

## BODY OF INFANT FOUND NEAR PARK

The body of a new-born infant was found last night near the edge of Chestnut park, at Fifteenth avenue east and Sixth street, by two boys from the Children's home playing in the vicinity.

The body was in the brush about fifty feet from the street. It was wrapped in newspapers, one of them a Chicago paper, and the other printed in Lake Worth, Fla., about a month ago. From examinations made, Coroner McComb is of the opinion that no care had been given the child after its birth.

## SECOND U. S. CRUISER TO MEDITERRANEAN

Washington, Sept. 30.—Orders for the cruiser Tennessee, now at Baltimore, England, to proceed at once to Brindisi, Italy, were issued by the navy department last night. Brindisi is the Adriatic coast of Italy, directly across the strait of Otranto from the Ottoman empire. It is within fifty miles of the Italian coast.

# ENTHUSIASM FOR HAMMOND

Splendid Meetings Held at Winona, Lake City and Wabasha.

After Speech at Rochester He Will Return to Washington.

Winona, Minn., Sept. 30.—Congressman Winfield S. Hammond, Democratic candidate for governor, was enthusiastically received here last night on the last stop of his second day of campaigning in Southern Minnesota.

The first stop of the day was made at Lake City where the visitor was greeted at the station with a band and escorted to the opera house by a committee of citizens consisting of E. M. Morgan, Edward Wise, Sr., Peter Beck, Peter Ehlers, James McCarthy, Neil Cronin, P. H. Hahilly and Sid Nygren.

Hammond Speaks An Hour. Although the meeting was called at 8 p. m., nearly 800 persons had assembled to hear the Democratic speaker, and Mr. Hammond spoke an hour, discussing campaign issues. Mr. Morgan presided. Other speakers were Neil Cronin, nominee for attorney general, and A. L. Sorlie, chairman of the state central committee.

Soon after the meeting was concluded, the Hammond party was taken in charge by a delegation from Wabasha, among whom were Fred O'Reilly, Mike Marks, Herman Luth and Capt. Joseph Bulson, and was whisked away in automobiles to that city, where a meeting was held at 2 p. m. and Mr. Hammond was given an enthusiastic reception.

The meetings here last night was one of the largest ever held in the city, the opera house being packed to the doors, while many people were unable to gain admittance. Mr. Hammond was loudly cheered, and spoke for an hour, and enthusiastic applause punctuated his address. The audience cheered every mention of President Wilson.

Not Riding Wilson's Coat Tails. "I do not think I should be elected because President Wilson is a good man," Mr. Hammond said, "and because I am loyal to him, I don't propose to ride into any one's office."

Mr. Hammond said the American farmer is capable of competing with the world, and that the elimination of duties on agricultural products will benefit and not hurt him.

"All that is needed is an open market," he said, "and I could not but believe that the Democratic party will see that this is made possible."

The congressman pointed out the rapidly increasing cost of state government, and said that a halt must be called, urged the elimination of useless agencies, and that the economy and efficiency commission, and promised, if elected, to urge the legislature.

"If there is not a stop put to reckless expenditures," he said, "the people will rise up and destroy many of the agencies we have, and I could not blame them much. I advocate economy without parsimony, adequacy without waste, and extravagance."

Mr. Hammond today will visit St. Charles, Elyta, Plainville, Stewartville and Rochester, concluding his campaign with a meeting in the latter city, at which 3,000 are expected.

Trenton, N. J., Sept. 30.—Representatives of the Republican, Democratic and Progressive parties met in state convention here yesterday and adopted party platforms. The Democratic platform included a warm endorsement of President Wilson's administration.

## NEVADA SOCIALISTS BARRED OFF BALLOT.

Reno, Nevada, Sept. 30.—By holding constitutional a provision of the new election law requiring candidates for state offices to pay a fee of \$100 each, the supreme court barred six Socialist candidates from a place on the general election ballot. They held the fee to be unreasonably high.

## Constipation a Penalty of Age

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, pleurisy, fever, and other dependent ills.

Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative- tonic, recommended by physicians and thousands who have used it, is the combination of simple herbs with resin sold by druggists everywhere under the name of Dr. Caldwell's Syrup Pepsin. The price is fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 151 Washington St., Monticello, Ill.

# "No Alum"

must be the watchword when the housewife buys baking powder.

Alum is well known to be a powerful astringent, and should never be used in food.

Prof. Geo. F. Barker, M. D., of the University of Pennsylvania, says: "I consider the use of alum baking powder highly injurious to health."

Food economy now, more than ever, demands the purchase and use of those food articles of known high quality and absolute purity and healthfulness.

# WATERWAYS BILL PASSED

House Votes Down One Proposed Amendment After Another.

Measure Now Needs Only the President's Signature.

Washington, Sept. 30.—The rivers and harbors appropriation bill, in the form of a senate substitute carrying only a general fund of \$20,000,000 for continuing present projects in the direction of the war department, was passed late yesterday by the house. It now only needs the president's approval to become law.

As reported by the senate committee, the bill included appropriations aggregating \$25,000,000, but the successful filibuster conducted by Senator Burton noticed in the adoption of the substitute.

Numerous amendments were defeated before the bill reached the floor. Representative Fitzgerald of New York wanted specific authorization for the expenditure of \$500,000 for improving the Hol Gate and East river, including the blowing up of Coenties reef. Delay in this work would mean enormous greater cost later and immediate danger to lives.

Clark's Pier Turned Down. Representative Rainey of Illinois moved to extend the Mississippi river levee improvement as far north as Rock Island, instead of Cape Girardeau, near the mouth of the Ohio river, as at present authorized. Speaker Clark took the floor to support this amendment, saying it was needed "for a country richer than the valley of the Ganges or the Nile delta." It was rejected, 123 to 46.

Representative Parker of New York tried unsuccessfully to get \$750,000 for a lock and dam at Troy. The final effort of the opposition, in an amendment by Representative Humphreys of Washington to reduce the appropriation from \$20,000,000 to \$5,000,000, was defeated 172 to 159. The bill was then passed without a record vote and will become law upon the president's signature.

## I. W. W. ORATORS ARRESTED AGAIN.

Des Moines, Iowa, Sept. 30.—Five Industrial Workers of the World were arrested last night as fast as they attempted to address a crowd at a downtown street corner. These same men had been arrested for blocking traffic on a Saturday night. Chief of Police Crawford announced that he would endeavor to have an ordinance framed in the city council which will permit putting the prisoners to work on the rockpile.

# WALL STREET PLANS EMPLOYEES' RELIEF.

New York, Sept. 30.—A committee was formed yesterday afternoon to protect the poor of Wall street against want. The committee is composed of wealthy brokers, and the persons who will receive its attention are the army of clerks and employees of stock exchange houses who have lost their places or are working at reduced salaries because of the closing of the

world's stock markets. It is to be known as the Wall Street Employees' Relief committee.

It is estimated that not less than 5,000 men, women and boys already have lost their positions in the financial district because of the stagnation created by the foreign crisis, while as many more have suffered partial reduction of salary or are being employed "on part time."

## VILLA TO SEE CARRANZAS

Says He Expects Peace Agreement to Be Reached.

Optimistic Spirit Is Evident in Mexican Affairs.

Torreon, Mex., Sept. 30.—Gen. Villa has left here for Aguas Calientes, where he expects to meet Gen. Obregon, head of the peace commission from Carranza. Villa has received hundreds of messages from army officers urging him to make a peaceful settlement with Carranza.

**Villa Is Hopeful.**  
El Paso, Tex., Sept. 30.—Gen. Villa, who was on his way from Chihuahua city to meet Gen. Obregon, head of the Carranza delegation, expressed optimism as to the happy result of the pending conference in a telegram received by agents here. Villa telegraphed while en route as follows:

"I declare that all is working satisfactorily and we hope soon to reach a peaceful understanding which will assure peace in the republic."  
Villa declared that he does not agree with Gen. Zapata, who was reported recently by Gen. Funston to have asked that the American troops remain at Vera Cruz for the present to avoid the port being occupied by Carranza troops during the present embolism in answer to a query. Gen. Villa telegraphed the Associated Press from La Mancha, Coahuila, as follows:

"I manifest that I desire always have been that the Mexican people arrange all their troubles by themselves, and that consequently I am not in accord with the protest of Gen. Zapata that the American forces do not depart from the port of Vera Cruz, thus leaving it to the Carranza forces. All that Mexicans want is that their fatherland be left alone in their control regardless of the party or faction which controls it."

The difference of opinion between Villa and Zapata, with whom the Villa faction has asserted Carranza will not be taken by Villa officials here as indicating any agreement between the two leaders.

**Wants Villa to Quit, Too.**  
Mexico City, Sept. 30.—In his reply to the petition of the Carranza generals asking him to resign in favor of Carranza, Gen. Obregon has refused to do so. He has stated that he will fight to the end, and that he will fight with the same energy as he has shown in the past. He has also stated that he will fight to the end, and that he will fight with the same energy as he has shown in the past.

While the general session of southern chiefs is being held in Mexico City, another conference will be conducted at Zacatecas. In this latter meeting a special commission appointed by Gen. Carranza and headed by Gen. Obregon will discuss with representatives of Gen. Villa the differences existing between Villa and Carranza.

The general session of the conference, which will be held in the capital, will not be opened formally until Thursday. Gen. Carranza will preside, and the meetings, which may last for several days, will be held in the morning. The question of the resignation of Gen. Carranza and the naming of his successor will be decided by this body. The exchange of information concerning the proceedings of the conference will be held in the morning.

**GLURE CLAIMS ALL FOR LEE**  
Discreetly Fails to Specify Strongholds—Injecting Enthusiasm Here.

W. O. Clure of Minneapolis, W. E. Lee's personal manager during the campaign for the Republican nomination for governor, and now one of the managers of the Republican campaign, was in the city last night. The enthusiastic talk given by Lee in general, and the whereabouts of which was heretofore unknown, seems to have centered itself in Mr. Clure. According to his general statement, Mr. Lee will carry the state almost unanimously. In fact, Mr. Clure is sorry for Mr. Hammond. He declared at Republican headquarters, 309 Alworth building, last night, that Mr. Lee would carry seventy-two out of the eighty-two counties in the state, and that Mr. Hammond would carry only three counties in his own district.

The fact that Mr. Clure discreetly failed to specify which counties may or may not be significant, but people are curiously and would like to know. St. Louis county was not mentioned and it is not impossible that the enthusiastic talk given as much for the purpose of bolstering up the drooping spirits of the committeemen here as for anything else.

## SCHOOL DEFICIENT IN FIRE ESCAPES

Residents Declare Endion Pupils Lack Proper Protection.

Residents of the East end have been complaining of the absence of fire escapes on the Endion school. They state that it is a large building and that the students should be afforded all possible protection. Inspector Kiley states that he has received similar complaints but that it is doubtful if fire escapes can be ordered installed under the ordinance. He explains that while one side of the building is three stories high the other is but two stories above the ground and that the ordinance requires the building to have a two-story classification. He says that he is far from satisfied that the building should remain without fire escapes and that he will make another examination of the situation with a view to having them put on if it can be accomplished. He is of the opinion that the school authorities would be willing to have the fire escapes if it appears that they are essential to the proper protection of the children.

## GERMAN PAPERS ARE CONFISCATED

East Grand Forks Woman Cannot Bring Publications Through Union.

East Grand Forks, Minn., Sept. 30.—(Special to The Herald).—The attempt of Mrs. R. C. N. Kneutrz of this city, to bring a bundle of German newspapers with her from Hanover, Germany, where she was visiting when war broke out, was thwarted by the British customs officers. All Mrs. Kneutrz's newspapers were seized by these officials, and her request for their return was met with a firm response that they had been confiscated. Mrs. Kneutrz brings glowing accounts of conditions in Germany, declaring that food prices in Hanover are normal at the present time, although she anticipated an increase when war broke out. Food supplies for all present needs of the German empire are available, says Mrs. Kneutrz.

**AMERICAN WORK IN TURKEY IS PRAISED.**

For thirty-five years Sir William Ramsay, LL. D., D. C. L., etc., has traveled up and down Asia Minor in the interests of the archaeological and historical work for which he is famous. He made a flying trip from Constantinople to London this summer to be present at the diamond jubilee of the Bible Lands Mission Aid society, where he was the principal speaker. His subject was the social and economic aspects of missions, and he devoted a large section of his address to praising the American board's missions in Turkey.

**PLANS NEW BARN AS OLD ONE BURNS.**

Carrington, N. D., Sept. 30.—(Special to The Herald).—W. H. Sutherland, residing near here, consulted a builder on plans for the reconstruction of his barn when the structure was still in flames. Sutherland found his barn afire, and he at once got into communication with a contractor with the result that the new barn will be in process of construction this week.

### TO ADVERTISE VALLEY LANDS

Red River Valley Development Association Going After Settlers.

Newspapers, Magazines and Personal Letters Will Be Medium Used.

Crookston, Minn., Sept. 30.—(Special to The Herald.)—The first meeting of the directors of the Minnesota Red River Valley Development Association since the annual convention at Moorhead June 25 and 26 was held here last evening in the office of Secretary Davies.

President Leslie Welter of Moorhead presided. Other directors present were First Vice President Donald Robertson

LESLIE WELTER  
Of Moorhead, President of R. R. V.  
D. A.

of Argyle, Vice President Selvig of Crookston, Treasurer George G. Johnson of Thief River Falls, P. B. Gaas of Red Lake Falls, A. E. Pfiffner of Argyle and N. J. Nelson of East Grand Forks.

Plans were decided upon by which the development work of the association will be pushed with greater vigor than ever before.

The advertising fund has increased materially warranting a more extended advertising campaign to secure desirable farmers from other states where

land not as productive as Red River valley soil by far, yet is held at three to four times the price at which land can be secured here. In addition to the newspaper and magazine advertising a personal letter advertising campaign will be started by Secretary Davies who will induce members of all farmers clubs to write letters to friends and relatives in Southern Minnesota and in all outside states, enclosing photographs of corn, alfalfa and clover fields, farm buildings, stock and other farm scenes which will be furnished them free by the secretary who is armed with a camera and has a collection of over 1,000 pictures of farm scenes during all his trips.

The secretary reported that since the middle of May he has traveled over 8,000 miles in the association automobile, traversing each of the counties once and portions of them several times.

**For Farm Crop Show.** All of the officers and directors agreed that the material was available for a magnificent farm crops show in Crookston next February. In each of the ten counties a wonderful corn crop has been raised and with Crookston's new armory, \$500 available for the show, there will be ample room for a wonderful exhibit. There will be more corn exhibited in Crookston at the Minnesota state fair this year.

The secretary was instructed to begin work at once on the premium list which will be issued in November and notify all the papers in the ten counties to advise their readers to select and preserve their corn, alfalfa and clover and grain exhibits for entry in the Farm Crops show, where premiums aggregating \$2,500 will be awarded.

The affairs of the association were the order of business at the directors' meeting in November at which time plans for the ensuing year will be definitely outlined. The association has several important projects under way, definite announcements of which will be made following the directors' meeting in November.

### CAUGHT AT BOUNDARY.

Weyburn, Sask., Man Charged With Importing Girl for Immoral Purposes

Porter, N. D., Sept. 30.—(Special to The Herald.)—Suspected of endeavoring to entice a young girl into the United States for immoral purposes Samuel Delic of Weyburn, Sask., was arrested here. He was turned over to the mounted police. He was accompanied by a nine-month-old girl and claimed she was his sister but her stories offered materially. Delic resists the charge in a similar charge. His present charge is abduction but a more serious one may be made on further investigation by the officials.

Declares Insurance Commissioner

Preus About Foreign Concerns.

St. Paul, Minn., Sept. 30.—State Insurance Commissioner Preus, who has received many inquiries in regard to the reliability of foreign insurance companies, sees no reason for policyholders to worry because of the European war. He believes ample protection is afforded.

"Foreign insurance companies," said Mr. Preus, "are licensed to do business in Minnesota and are required to maintain a deposit with some insurance company in the United States in a sum at least equal to the capital required of a domestic company, and are also required to maintain the same reserve as domestic companies. This reserve is domestic companies. This

### BIRDSELL'S CASE PROVES PUZZLER

North Dakotans Wonder About His Drawing Two Salaries.

Bismarck, N. D., Sept. 30.—(Special to The Herald.)—Politicians are wondering what kind of a game the Republican member of the faculty of the University of North Dakota, was appointed chairman of the state tax commission two years ago by Governor Burke. When Governor Hanna came into office, he vetoed the bill creating the tax commission, and Chairman Birdsell and his associates on the commission appealed the matter to the supreme court and were sustained.

**No Successor Appointed.** Prof. Birdsell has now decided to return to his chair at the university, so has tendered his resignation from

the commission to Governor Hanna, who it is popularly supposed, does not want to appoint Birdsell's successor until after the election. Chairman Birdsell therefore continues in his place with the tax commission and at the same time has resumed his duties at the state university at Grand Forks, which naturally raises the question whether he is drawing two salaries from one state at the same time.

Until his appointment to the state tax commission, Prof. Birdsell's political affiliations were an unknown quantity. It is believed he was not an ardent supporter of the Democratic ticket two years ago nor at the time. The wonder over what kind of a game he is now playing with a Republican governor, while posing as a Democrat himself is only natural, as is the general inquiry if he is drawing two salaries from the state at the same time and the same with the governor's knowledge.

### MARRIED AT MARQUETTE.

Miss Maney and Julius Wolff, Both of Duluth, Wedded.

Marquette, Mich., Sept. 30.—Julius E. Wolff of Duluth and Miss Margaret Maney, formerly of this city, were married here yesterday at St. Peter's cathedral. Miss Maney is a daughter of Mrs. Mary Maney, and has lived in Duluth for the last several years. Mr. Wolff is a Duluth business man. Among those who came to attend the wedding were Mr. and Mrs. August Wolff, W. P. Wolff, Mr. and Mrs. James Maney and Mr. and Mrs. E. J. Maney of Duluth and John Maney of Coleraine, Minn.

### PROMOTER CONVICTED.

Calumet Man Found Guilty of Misuse of U. S. Mails.

Marquette, Mich., Sept. 30.—Peter H. Finnegan of Calumet, indicted by a Federal grand jury for the misuse of the United States mails in promoting fraudulent mining enterprises, was convicted in United States district court here Tuesday on one of the five counts of the indictment, the only one on which the case was submitted to the jury.

Austrians and others in various parts of the country were sold stock of the Calvin-Arizona Copper company and the Calvin-Sultana Copper company, for which Finnegan represented that he was agent. The indictment charges that he received money in payment for the stock, which was not delivered in any instance, through the postoffice at Calumet. The Calvin-

Arizona Copper company practically went out of business in 1907, it is said, while Finnegan's transactions were made in 1911 and 1912. It was shown that he did not deliver the stock, and it was asserted he did not intend to. Most of the purchasers made part payments for their shares, it was testified.

Myron H. Walker of Grand Rapids, assistant United States district attorney, conducted the people's case. Michael Feinberg of Chicago and Charles F. Burton of Marquette were counsel for the defendant.

### LONG PRAIRIE BURGLARY

Safe in Postoffice Blown and \$300 Taken in Cash and Stamps.

Long Prairie, Minn., Sept. 30.—The safe in the postoffice was blown Monday night by crackers and robbed of \$300 in cash and stamps. The blast wrecked the fixtures. The work was evidently done by professional young men who are thought to have made their escape in an auto.

### FORMER AUDITOR OF NORTH DAKOTA DIES.

Groton, S. D., Sept. 30.—J. D. Reeves, former state auditor and editor of the Groton Independent for thirty-three years, dropped dead on a street here yesterday. He was born in Pleasant Grove, Minn., in 1855, and learned the printing trade at Spring Valley.

### LAFOLLETTE NOT TO RUN

Health Cannot Stand Gubernatorial Campaign—Independent Mentioned.

Madison, Wis., Sept. 30.—It is announced here that the condition of health of Senator La Follette will not permit his being an independent candidate for governor. It is even intimated that he will not be able to return to the state this fall to engage in the campaign.

Among the leaders, when informed that La Follette would not be a candidate declared "there will be another race and a close one."

The name of Senator A. W. Sanborn has been mentioned in this connection, but his friends here declare he will not enter the contest. There is still talk of Dr. Arthur C. Barker, of Milwaukee, and former Senator J. J. Blaine of Boscello.

and was bound over for trial at the next term of circuit court, his bonds being fixed at \$500.

Inhaling—The 4-week-old son of Mr. and Mrs. S. Adler died Monday after an illness of only a few hours. The funeral was held at 2 o'clock Tuesday afternoon from the residence in the Leo flats, Fourth street.

Calumet—Twenty-five more men were employed the last few days on the road work in Oscoda township, making a total force of about fifty idle miners now being employed on the roads in that township to aid in relieving the copper mining situation.

Torch Lake—Arthur Pinche, aged 27, an employee of the Calumet & Hecla mining company, was instantly killed when he was crushed beneath the wheels of a train of cars. No one witnessed the accident, and the first indication of the mishap was the irregular motion of the cars which passed over the body.

Houghton—Prof. J. G. Lamson gave an address Monday and Tuesday evenings at the Odd Fellows' hall in Houghton on "The Meaning of Armageddon" respectively, under the auspices of the Seventh Day Adventists.

Dakota City, N. D.—The executive committee of the Civic league elected delegates to the meeting of the general Federation of Women's clubs in Jamestown next month. Mrs. Maynard and Mrs. Zetterberg were elected delegates with Miss Jean Smith and Mrs. Farmer as alternates.

Fargo, N. D.—Contractor Durkee has set a force of men to work on painting the exterior woodwork of the new auditorium. The work includes painting window sashes and the like and such other portions of the edifice that require painting.

Dickinson, N. D.—Falling in with the request of President Wilson, that the people observe Sunday, Oct. 4 as a day of special prayer and supplication, the Masonic bodies of Dickinson are arranging for services in their temples on Sunday afternoon next.

Langdon, N. D.—A sentence of two years in the state penitentiary at Bismarck was given by Judge Kneebach to John Robertson, whitey and Charles Stevens, colored, who appeared before the court and entered a plea of guilty to a charge of robbery last week at Allen.

St. Cloud, N. D.—The Kremenetsky Bros. & Sons, general merchandise store at Tuttle, Kidder county, was burglarized Monday night. The loss was \$1,000.

Fargo, N. D.—Mrs. Carrie Kneebach, aged 27 years, died at a local hospital Sept. 27. Tuberculosis was the cause of death. Mrs. Kneebach had been a victim of that dreaded disease for some time. She is survived by a husband and one child to mourn her death. Mrs. Kneebach is an employee of the Standard Oil company.

Grand Forks, N. D.—W. B. Wheaton, formerly of Minneapolis, has purchased an interest in the model steam laundry of this city, and will hereafter be associated with W. T. Shepard in the management of the plant.

Fargo, N. D.—Potato rates from Minnesota to points in Illinois, Indiana and Ohio will be the subject of a hearing before Examiner Dow of the interstate commerce commission Oct. 14, in St. Paul.

Hansboro, N. D.—The explosion of a gasoline engine in the Walker blacksmith shop not only completely wrecked the engine but also did great damage to the other contents of the shop. Fortunately no one was injured.

Hansboro, N. D.—Some excitement was created here by what was evidenced

by a Canadian airship on a trial trip. The air craft was seen by a number of the air craft from the north and south. The local officials believe it was a Canadian-owned machine and that it accidentally swerved down over the line into this county without the men in charge knowing they were out of Canada.

### MINNESOTA BRIEFS

St. Cloud—Victor Anderson was released from the county jail Monday after completing a forty days sentence for having been intoxicated in the prohibition village of Mord. He was disorderly according to the complaint on which he was found guilty.

International Falls—Swan S. Molander, assistant public examiner in the school department, is here checking Districts Nos. 1 and 4.

Thief River Falls—Thief River Falls third annual public library ball will be held at the auditorium on Friday evening, Oct. 2. The new free Carnegie library is in the process of erection and the receipts of the dance will go toward furnishing the building's interior.

St. Hilare—G. Fellman's machine, driven by S. Soderman, turned turtle on account of a defective steering knuckle. Olive Peterson and Mildred Peterson, who were in the car, were thrown out. Olive received a badly sprained wrist.

St. Cloud—Plunging over a seven-foot culvert embankment Gull Rowe, 19 years, Ida Rowe, 18 years, and Harry Rowe, 12, escaped injuries in a fall from a car when their car turned turtle. Sept. 27, the young people made no attempt to jump, seeking safety by remaining in the seats. The back of the car settled upon a small rock and the three tumbled from under the overturned machine none the worse for their experience.

Brainerd—John Stone Pardee of Duluth, secretary of the efficiency commission appointed by Governor A. O. Berghart, was in the city Monday.

Little Falls—A drive of 156 miles was made Sunday by the first of local people, in four automobiles, going to Princeton by way of St. Cloud, Foley and Milaca.

Stillwater—John Doran was accidentally drowned in the St. Croix just below the Mulberry street point. He was killed by a runaway horse. The body was found floating in the St. Croix, Sept. 27. An empty skirt was found floating on the St. Croix. John Doran was 42 years of age and was single. He was born in Wisconsin and came to this city with his parents thirty years ago.

### WISCONSIN BRIEFS

Sturgeon Bay—Gordon Thompson, 12-year-old son of Olavus Thompson, was the first victim of the hunting season in Door county. He was shot and killed by a boy named Miller, a playmate. The boys were hunting for a squirrel when the shot was fired by the Miller boy, was accidentally discharged.

the stores to inspect the displays made by them.  
Every store will be dressed in holiday attire. The business men have been busy for the last week getting their stores in readiness for the inspection of a critical public and no expense has been spared in placing them in proper "dress parade."  
The Third Regiment band will play military, classical and fast-time selections. Parts of the street will be thoroughly swept tomorrow afternoon in order that those who wish may tango, hesitate, one-step or do any other dance that might appeal to them. Con-

The musical program will begin at 7:30 o'clock sharp. Selections will be played at all of the principal business corners as well as while the band is moving up and down the street. The program will continue for two hours.  
Many of the merchants have taken the opportunity of making special and unique displays. At the Juten shoe store is being displayed the largest shoe ever shown in this city. The shoe is a size 20.  
Special window displays are being made by John J. Moe & Sons' department store, the Cameron-Johnson-Horngren Furniture company, the Anderson Furniture company, Hornman, Width, Heglund Clothing company, Charles Mork & Son, clothing; the Minnesota Tea company, the S. W. Hill Clothing company, the People's Drug store, the Lyon Drug store, Heglund & Lindquist, Johnson & Peterson, hardware dealer; the Mortrud & Konecny Clothing company, Johnson & Thygeson Dry Goods company, Smith & Anderson, druggists; Enger & Olson, furniture dealers; A. Hanson Hardware company and others.

A. B. Anderson, chairman of the committee in charge, has been working hard during the last two weeks on the details of the affair. He has been ably assisted by Charles Mork, S. W. Hill, A. Hanson and A. Lofgren, members of the special committee, as well as John J. Moe, August B. Width, T. W. Cameron, Carl E. A. Franklin, Victor Juten, John Moe, E. H. Olson and other prominent business men of the street.

### NERVIG HONORED BY CONGREGATION

Rev. J. M. Nervig, pastor of the Zion Norwegian Lutheran church, and Mrs. Nervig were honored guests at a sup-

perseder tendered Mr. Nervig a purse of \$125 as an expression of appreciation for his services.  
Christ Hanson gave an address in behalf of the congregation. He also presented the purse to the pastor. Short talks were made by Rev. J. Stenberg, pastor of the First Norwegian Lutheran church; Anton Ringstad, John J. Moe, Mrs. Moe and P. O. Peterson. Mrs. Moe confined her address on behalf of the women of the West end to Mrs. Nervig. A response was made by the pastor in which he expressed his gratitude to the members of his church.

### ADAMS ALUMNI WILL HOLD MEETING

Will Outline Work for Year; Social Center Proposed.

The Adams Alumni association will hold its first meeting of the school year Friday evening at the Adams school, Seventeenth avenue west and Superior street. Plans will be made for an active social program this coming winter and reports will be made of the progress of the society during the last year.  
The officers who will report are: A. B. Gustafson, president; Miss Vanja Johnson, vice president; Miss Rhoda Gray, secretary; and Albin Johnson, treasurer. New officers will be elected. It is probable that action may be taken by the society relative to taking up social center work in the Adams school. The building, however, is not arranged so that work can be taken up on a large scale.  
The organization will hold its meetings on the first Friday of each month. Last year the alumni were successful in drawing out a large attendance to their meetings. Social, literary and musical programs were given each evening.

### West End Briefs.

The annual election of officers for the Men's Welfare club of the Swedish Mission church will be held this evening at the meeting of the club in the church parlors.  
Carl B. Hanson of Marinette, Wis.

is spending a few days visiting relatives in the West end.

Mr. and Mrs. Harry Stokes of Elgin, Ill., are guests of West end relatives this week.

Mrs. E. A. Thompson, 2318 West Fifth street, will entertain tomorrow afternoon for the St. Luke's guild of the St. Peter's Episcopal church.

John Therman of Minneapolis is a guest this week at the home of West end relatives.

Albert V. Hokanson of Winnipeg, who has been spending the past week visiting relatives in this end of the city, left last evening for a short visit to the Twin Cities.

Australians on Sea.

Seattle, Wash., Sept. 30.—Australian papers received in Vancouver on the steamship Makura say that Australian troops sailed for Europe Aug. 17. As no colonial troops have passed through Canada, it is supposed the Australians proceeded through the Suez canal.

### PRIZES TO BE OFFERED.

Gifts to Be Distributed at Brainerd N. M. D. A. Meeting.

Brainerd, Minn., Sept. 30.—(Special to The Herald.)—Through the efforts of President C. A. Albright and Secretary W. A. MacKenzie of the Northern Minnesota Development association, numerous prizes are being secured for the exhibition of grains, and other products to be held at the time of the joint convention of the Minnesota Crop Improvement association in Brainerd on Dec. 1, 2, 3 and 4. A manufacturing company of Minneapolis offers a silo as a prize and it will be erected on a prominent corner in Brainerd and serve as a standing advertisement of the coming two conventions. In addition to this big prize, the Northern Minnesota Development association has also secured \$700 worth of farm machinery and is now working on a big tractor for a prize.

### SIDELIGHTS ON CITY DIRECTORY

Odd Names Contained In List of Duluth Citizens—The Seasons, Animals, Birds and Automobiles Represented.

Biblical expressions, the seasons of the year, the weather, animals, fowls and automobiles, while even the story of Little Red Riding Hood, can be found among the names contained in the 1914 Duluth directory.

There are Adam (M. Adam) and Eve (H. Eve) in the Garden (Morris Garden) of Eden (Beattie Eden). Then there are Abraham (Abraham), Albert Isaac and F. Jacob. Jonathan is not there, but David David and Carl Saul are included, while Albert Solomon is not to be forgotten. Noah is left out, but T. Ark is there. Eldridge Church and Leroy Temple bring one back to the thoughts of Sunday, while Peter Servis tends to make those thoughts linger. Jonah is also forgotten, but there is Daniel Whale to remind one of that story. Herbert Cross and State Senator Pugh also suggest parts of the church.

Of course, there are scores of animals and fowls. Such names include Glen Mink, Charles Cat, Joseph Muskrat, Rex, Milton Fish, Ludwig Wolf, Maid Bird, George Swallow, Everett Robins, Matt Salmon, William Pike, Susan Crowe and Daniel Whale. There is no pig, but Chris Haug is there, together with Frank Ham and John Bacon. It would not be amiss to mention John Pickles at this time, nor Sid Baz. After all, these Henry Waters would come in handy.

Not a single day of the week is in the directory, but Charles Washam could easily substituted for Monday. Then the European war is brought nearer home with Walter French, George German and Edward England. Even Rollin Kaiser is included.

**Some Seasons.**  
But the best of all is F. E. Weather, with Frank Summers, Willis Spring, Walter Fall and Mildred Winter. Then there are Arthur Day and Frank Knight, not to forget Samuel Early. Then Robert North, Chandler South, Walter East and William West might be mentioned. Albert Mercuro suggests the weather just a little, while John Frost and George Showers are also included. There is no rain nor snow, but Thomas Moon and Alfred Starr must not be forgotten, while Jennie Halley brings back the comet of but a few years back.

Oliver Older and Joseph Younger would make a good team, as would Lillian Rong and Arthur Wright, John Sours and Robert Drinkall are two different men. With these James Speed,

George Brown and D. Dowse might all be included.  
E. E. Cobb, Thomas McGraw, Stanley Mack, Samuel Evers, Henry Wagner and George O'Toole help make the directory interesting for baseball fans.

Automobilists will find the directory especially interesting with nearly every make of machine, included among the names. There are Alice Ford, Simon Chalmers, Anton Overlund, Thomas Moore, August Merce, Joseph King, Frank Chandler, John Case, William White, John Haynes, Walter Loser, William Henderson and Theodore Hudson.

One of the most interesting names that would help tell the children the story of Little Red Riding Hood. (Frank Hood) left her home (Oscar Holm) one fine day (Dr. David Day) to see her grandma (Frank Grandy). While walking through the woods (George Woods), she met a wolf (Julius Wolfe). He took the basket (August Basket) and came to the house (Susan House) of the girls' grandmother. Two kids (Charles Knox) and a wolf made on the door and when grandma heard the raps (Olin Rapp) she told Mac wolf to enter. And the wolf made a rush (Delbert Rush) for the bed and ate her too.

So all children must be afraid of the boogie (Walter Bugle) man, with his boo (Otto Boo).

**GETS STRAIGHT SENTENCE.**

Matt Mattson Sent to Work Farm for Carrying Weapons.

Thirty days on the work farm without the option of a fine was the dose handed to Matt Mattson in police court this morning when he pleaded guilty to carrying concealed weapons. Patrolmen Callahan and Johnson saw him loitering along Lake avenue about 1 o'clock this morning and began to question him, as they thought he was acting suspiciously, according to their report at headquarters. Seeing a bulge in his side coat pocket, they asked him if he had a bottle of whiskey, and reaching into the pocket they pulled forth a loaded revolver. In court this morning Mattson was unable to give a satisfactory reason for lugging the smoke wagon.

## PEACE MEET OPEN TO ALL

Elks Plan Sunday Program for All Creeds and Nationalities.

Prominent Speakers Secured and Fine Program Arranged.

All creeds and nationalities will participate in the mass meeting which has been called for 3 o'clock next Sunday afternoon by the Duluth Elks at their temple, 309 and 311 West First street, to join in observing a day of prayer for peace as requested in the recent proclamation of President Wilson.

The indications are that the auditorium of the lodge will be taxed to its capacity, as the interest of the people in the war now raging in Europe is as deep as it is wide-spread. Men and women in all walks of life profoundly hope for peace and will take part in services directed to that end.

The committee which has charge of the services has arranged a program of unusual excellence and merit. Several of the most prominent preachers in the city have been secured to deliver brief addresses and several vocal selections will be rendered by the Orpheus Singing society.

At their last meeting the G. A. R. men of the city voted to attend the exercises in a body. Capt. W. H. Smallwood, one of their number and well-known throughout the city, will be one of the speakers. The opening statement will be made by Rev. Albert W. Ryan, rector of St. Paul's Episcopal church. He will be followed by Father Floyd of the Cathedral of the Sacred Heart and by Rabbi Lefkowitz of Temple Emanuel.

The Elks are distinctly an American fraternity and one of its fundamental principles is the betterment and uplift of humanity. For that reason the members of the Duluth lodge felt that it would be eminently fitting that they hold the mass meeting, which has been arranged to join with the rest of the country in observing Sunday, Oct. 4, as a day of prayer for peace in keeping with the request of the president.

### THINK MILWAUKEE ROAD WILL COME

Visit of Directors Revives Gossip of Extension to Duluth.

In the opinion of some of the Head of the Lakes railroad men, the Chicago, Milwaukee & St. Paul road is planning to enter Duluth and Superior in the near future. This opinion is also shared by several of the railroad men of the Twin Cities.

The visit here of President A. J. Eastling, Vice President K. Williams, Percy Rockefeller and Stewart Harkness, directors of the road, has caused a renewal of the gossip concerning the Milwaukee's future activities.

For several years rumors have been heard from time to time that the Milwaukee would build a road to the Head of the Lakes. The completion of the Pacific Coast extension to the head of Lake Superior, to give the road an outlet east by the lake and rail route. The near completion of the steel plant and the general indications pointing to a revival of the lumber trade at the Head of the Lakes, are other facts that figure in the belief that the Milwaukee is seriously considering the construction of another railroad line into Duluth. The Milwaukee has running lights over the Northern Pacific road from St. Paul which it has never made use of.

### RAILROADS

EXCESS BAGGAGE RATE COMING UP

North Dakota Rail Commission to Have Another Hearing.

Fargo, N. D., Sept. 30.—(Special to The Herald.)—The traveling men of North Dakota hope that some definite adjustment of the excess baggage rate case can be made at the hearing which begins tomorrow before the state railroad commission.

The first protest was made by the members of the railroad men's association ordered a reduction of rates. The railways accepted the reduction, but report at headquarters, seeing a bulge in his side coat pocket, they asked him if he had a bottle of whiskey, and reaching into the pocket they pulled forth a loaded revolver. In court this morning Mattson was unable to give a satisfactory reason for lugging the smoke wagon.

Berlin, Sept. 30, by wireless to Sayville, L. I.—Sven Hedin, the Swedish explorer, has published in Swedish newspapers an account of his impressions during his recent tour through Belgium and certain parts of France occupied by German troops.

Mr. Hedin was commissioned by the German government to make this trip. He says that the people in these districts have returned to their homes, and that they praise the splendid discipline of the German soldiers.

**WILL END STRIKES OVER JURISDICTION**

Six International Unions Complete Organization of an Alliance.

New York, Sept. 30.—It was announced here last night that the delegates of six international unions in the building trades have completed the formation of an alliance by which strikes over disputes involving the work of one union should be averted.

The six unions are the Bricklayers and Masons' International union, the Journeymen Stone Carriers' International union, the International Union of Engineers, the United Brotherhood of Carpenters and Joiners, the Plasterers and Ornamental Plasterers' International union, and the International Hod Carriers and Building Laborers' Society of America. They represent more than 60,000 workers throughout the United States and Canada.

The six international unions in the alliance, the announcement said, will settle all jurisdictional disputes without strikes.

**THRESHER DISAPPEARS; CREDITORS IN LURCH.**

Fessenden, N. D., Sept. 30.—(Special to The Herald.)—Claiming to be a wealthy rice farmer in Texas, J. J. Miller, who has operated a threshing rig here for two or three years, has disappeared and his employees and numerous dealers have not been paid. It is asserted Miller collected for the work done and left with the funds.

Efforts are being made to trace the man but so far he has not been located. Some of the employees had not been paid a cent and others had drawn only small sums. Many of the merchants who furnished him supplies were not paid anything.

**FEDERAL JOBS OPEN.**

ant, department of agriculture, Oct. 14 and 15; commercial iron worker, \$1.40 a day, Oct. 27; junior physical chemist, \$1,400 yearly, Nov. 3; assistant in rural education, female, \$1,800, Oct. 27; teacher of vocal music, female, \$600 to \$720 a year, Nov. 4.

Many of these positions are open to several applicants, and examinations given all over the United States.

**SLEEPS ON TRACK; MAY FORFEIT LIFE.**

East Grand Forks, Minn., Sept. 30.—(Special to The Herald.)—Louis Field, aged 31, slept on the Northern Pacific main track here and the first train that chanced along rudely awakened him by a blow on the head.

Field's skull is crushed, and it is probable that he will die. Papers found on his person indicate Field came from Minneapolis.

## Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly cured me. There was no operation, no loss of time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, I will send you a copy of my story.

Fullen, Carpenter, 124 Macmillan Avenue, Mass. N. J. Better out on this notice and show it to any other who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

# WOULD USE BLANKETS TO MAKE OVERCOATS.

(Correspondence of the Associated Press.)  
London, Sept. 30.—The report that some 200,000 men of the British forces lack overcoats has prompted a retired naval officer, to suggest an American idea. "During the Civil war in America," he writes in a letter to the Times, "the Confederates soldiers made good overcoats out of blankets. A slit was cut in the center just large enough to put the head through. The slit was then hemstitched to prevent it getting larger. A flat button was then sewn on one side at the center of the slit, and a tab with a button-hole on the other side, so as to close the hole when not in use. Some of the Southerners added a small slit or a piece of tape in which they carried a toothbrush instead of a flower."

# Quality

Quality is something that must be "built in" an automobile. The real quality of a car doesn't show on the surface. It's something that proves itself in constant service. The Chalmers slogan is "Quality first." Chalmers cars are built to last, to give satisfactory service for many seasons.

Chalmers quality means that every piece of material that goes into the making of an automobile bearing the Chalmers trademark must be of highest grade—first class throughout.

The only way we can be sure of getting quality material—the right material for the work required of each part—is to build all Chalmers parts in the Chalmers Shops. This is what we call "built in" quality, the kind you get in every Chalmers car.

Chalmers Cars are built in the Chalmers Shops by expert Chalmers trained mechanics, with the most modern tools and machinery. They are rigidly inspected by Chalmers inspectors. Thus we know that every part, even the smallest bolt, is made from quality material, made right and will give the utmost in satisfactory wear.

You can't get equal assurance of quality in any assembled car.

Take the Chalmers "Real Test" Ride. Prove Chalmers quality to your own satisfaction by a thorough demonstration.

# CITY WILL APPEAL CASE

**Suit Testing Validity of Street Railway Franchise to Supreme Court.**

**Hoped to Have Case Disposed of in October Term.**

Formal notice of an appeal to the District Judge Cant in the quo warranto proceedings brought to test the validity of the legislative franchise granted to the Duluth Street Railway company in 1881 was filed yesterday by Francis W. Sullivan, one of the attorneys engaged by the city in connection with the case. Counsel on both sides have expressed a desire for an early hearing before the state's highest tribunal and an attempt will be made to have the case disposed of at the October term of the supreme court.

On May 23 last, Judge Cant handed down a decision in which he held that the street railway company was operating its lines under a valid and subsisting franchise, and not merely by sufferance, as was contended by the city. The appeal to the supreme court is taken from judgment entered on the findings of the court.

The city instigated the action against the street railway company. It was brought in the name of the state. Against the traction company requiring it to appear and show by what warrant or authority it claimed to operate its lines in the downtown section of the city. The city's claim was that the company had failed to build and put in operation one mile of track within one year from the date of the grant and that this omission on the part of the company constituted a self-inflicted forfeiture. The company offered evidence in support of the claim that substantial compliance of the terms of the franchise was made within the period allotted by the franchise. The trial of the case lasted about ten days.

An able array of legal talent is connected with the case. J. V. Nethaway, state attorney general, Davis, Kellogg, Severance & Olds of St. Paul, Francis W. Sullivan of this city and City Attorney Harvey Clapp. The company is represented in the litigation by Washburn, Bailey & Mitchell, Thomas S. Wood and Henry F. Greene.

# SOME COMPENSATION FOR WAR GARNAGE

**Dr. Phelan Opens Extension Course With Lecture on Democracy.**

University extension work for the year was begun last night at the Central High school. W. C. Smiley, a St. Paul attorney, began his instruction in commercial law. His lectures will be given every Tuesday evening.

Dr. Raymond V. Phelan of the University of Minnesota gave the first of his series of lectures on "Economic Democracy in Europe and America." Speaking of the European war, he stressed the hope that some compensation might be obtained for civilization for the great loss of life and property.

The speaker outlined the establishment of the right of each nationality to rule itself, the continuation of the spirit that in time of war makes classes and nations enemies, and the permanent establishment of the war time idea that governments insist that prices be fair.

# Tackle Catarrh Now

**Be Free All Winter**

**Avoid Colds, Stiff Pneumonia, Keep Your Nose Clear and Your Throat Free.**

**Don't Wait Till You're All Bugged Up. Use S. S. S. Now.**

If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of Catarrh. But don't let anyone work off that old trick of something "Just as good."

S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectually cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

The medicinal components of S. S. S. are relatively just as essential to well-balanced health as the nutritive properties of the grains, meats, sugars, and fats of local food. Any local influence in the blood is rejected by the tissue cells and eliminated by reason of the stimulating influence of S. S. S.

You will soon realize its wonderful influence by the absence of headache, a decided clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely catarrh often infests the entire system.

You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for any and all blood affections, such as eczema, rash, lupus, tetter, psoriasis, boils, and all other diseased conditions of the blood. For special advice on any blood disease write to The Swift Specific Co., 303 Swift Bldg., Atlanta, Ga. Do not trust with substitutes. # Pneumonia and the Police

**A** POLICEMAN, a newspaper reporter or a magistrate would obviously be incompetent to decide whether or not a person was suffering with pneumonia. And by the same reasoning none of them would be capable of saying just what caused an attack of pneumonia in a case so diagnosed by a physician.

So much will be granted. But how is it in actual practice? Are the police authorities, and the reporters at all uncertain about these cases?

**A Typical Instance.**  
In the midwinter season an old man was found lying in a stupor on the ground near a bridge. He was picked up by the police in the morning and taken to the police station. He had the odor of alcohol on his breath. They decided that he had been on the streets for some time and had wandered down from the street and laid there on the snow all night.

A day later they decided he was more seriously ill than they had at first supposed. Now the "exposure" was given more prominence by the reporters. The police surgeon was also asked to take an interest in the case; which he did, finding that the old man was suffering with an advanced case of pneumonia. The victim was removed to a hospital at this late hour, where he sank rapidly and died. Of course he might have died even had he wandered to the hospital in the early delirium of his pneumonia, instead of wandering down under the bridge and making a bed of the snow-banks.

But the lesson the case teaches is this: Pneumonia often develops in drinkers without disabling them from going about at first; indeed, the mental disturbance which is an early symptom in many cases may lead the patient widely astray, as in this case. The incident also teaches that the police and newspaper version of "exposure" is to be taken with due consideration for the medical ignorance of the reporter. Not "exposure" but alcohol was the cause of the pneumonia in this instance, as in many others that happen day by day. The drinker is happily liable to infection with pneumonia germs—germs which we all, or nearly all, carry about with us habitually, in the cavity of the mouth or throat. Finally the incident proves

that Dr. Brady will answer all questions pertaining to Health. If your question is of general interest it will be answered through this column. If it is of a personal nature, a stamped addressed envelope is enclosed. Dr. Brady will not prescribe for individual cases or make diagnosis. Address all letters to Dr. William Brady, care of The Herald.

**REPLY.**  
Keep on living well. Drink coffee if you like it, once a day. Have your chest examined by a careful physician, while you are up and about. Have your nose examined, too—the cause of your cough and the bad taste may be in the nose. Avoid intimate contact indoors with anyone who seems to have anything wrong with the respiratory organs—whether it is just a cold or a clear case of consumption. Nearly all cases of tuberculosis are mistaken for "just cold" at first.

**REPLY.**  
R. J. writes: "My wife gains flesh in the winter and loses it again in the summer, but is well most of the time. She would appreciate some remedy that will produce flesh. She is 28."

With the data you give we can do nothing but pray for her. Let us join in praying that she may let herself alone as long as she is quite well and when she feels that her health is being lowered by some cause, some good doctor, and may give her a conscientious examination, and above all, let us hope that she may have an experiment with so precious a thing as health.

**REPLY.**

# TAXATION OF CORPORATIONS

**Only Two States Exceed California in Amount Collected.**

Washington, Sept. 30.—With collections of \$11,000,000, California led all the Pacific and mountain states in the taxation of corporations in 1913. Commissioner Davies of the bureau of corporations reported yesterday to the president. The amount was exceeded only by Pennsylvania and New York, and was not approached by any other state. The report covered Montana, Idaho, Wyoming, Colorado, Utah, Nevada, Arizona, New Mexico, California, Washington, Oregon, and that group of states which separates the source of state and local revenue. The special taxes on corporations for railroad and express companies.

A noteworthy feature of the tax system in the Pacific and mountain group, Mr. Davies stated, "is that most of the states contain minute provisions regarding taxation, in strong contrast with the Constitutions of the North Atlantic states in which only a few fundamental principles are laid down."

Commissioner Davies declared that the failure of many state central boards to employ definitely the methods used by them in assessing corporations delays the solving of the important problem of correct corporate assessment. Moreover, he added, "publicity in this matter is the only means of guarding against inaccuracy and unfairness." In many states of the western group it was impossible to estimate the specific amount of taxes paid by the corporations as a whole. In such the corporations, assessed by the state paid about 23 per cent of the state's taxes.

# SCHOOLMASTERS WILL BRANCH OUT

**Start Campaign to Enlarge Membership and Activities.**

The Schoolmasters' club, at its first dinner of the season at the Y. M. C. A. last night, started a movement to enlarge its membership so as to include the instructors of the public schools of the city and perhaps the normal school. It is the aim of the club to include grade principals and others who are not now affiliated with the organization, that the scope and influence of the club may be widened. The dinner preceded the business session.

Thirty-two instructors were present and twenty-five reported with remarks when called upon by President W. H. Schilling. The club views as to the future activities of the organization. It was agreed that the work should be enlarged as the membership.

Supt. Robert E. Denfeld gave an address on "Teaching as a Profession and the Essentials of a Prudent Teacher." Other speakers were C. H. High of the

Denfeld school and G. A. Glycer of the Central school.

The officers of the club elected in June are: W. H. Schilling, president; S. A. Foster, vice president; and treasurer, E. F. Geyer, secretary.

Those present at the dinner were: R. E. Denfeld, T. F. Holmes, George Gregory, E. F. Geyer, H. C. Vincent, S. L. Potts, A. L. Lawson, Leonard Young, W. H. Benson, W. A. Nonemaker, D. W. Hiestand, L. # INDICTED MEN ARE ACQUITTED

**William Copeman and John A. Smith Found Not Guilty of Burglary.**

William Copeman and John A. Smith were acquitted of the charge of third degree burglary by a jury in Judge Cant's division of the district court yesterday afternoon. The jury was out only thirty minutes.

The two men were jointly indicted on a charge of having broken into the launch Nipigon, owned by C. H. Krause of 1412 London road, on the night of Sept. 10, to steal.

They admitted having been found in the boat by Mr. Krause and police officers, but denied any intent to commit a burglary. They testified that they went to the launch to spend the night there, as they had no other place to sleep and no money with which they might procure lodging.

If an attempt had been made to steal anything from the launch, they testified, three other men whom they saw leave the boat before they entered it were the guilty parties.

# BIG SIEGE MORTARS OF GERMAN ARMY

**Caused as Great Surprise in Germany as Elsewhere.**

(Correspondence of the Associated Press.)  
Berlin, Sept. 30.—A member of the German parliament, who for nearly ten years has been connected with the army budget committee of the reichstag, tells some interesting things of the history of the now famous 42-centimeter siege guns which served the Germans so effectively at Liege and Namur.

"The general staff requested urgently that the next work be sent of the matter to the committee; not even the officers present had any knowledge of it."

"Six weeks ago I visited an ammunition factory, a member of the armament commission, and ascertained that any number of projectiles and cases for these mortars could be produced within a very short time. In reply to my question whether these mortars did not wear out rapidly, a director of the company said there are not enough fortresses in existence in the whole world to wear out a single mortar. As a matter of fact our army possesses 3,000 mortars of an earlier date, which are still usable."

The official North German Gazette also discusses these new mortars with special reference to their projectiles. It says:

"If a weapon of the German army has a claim to popularity it is the 42-centimeter mortars which in spite of their huge dimensions have remained to remain concealed. In fact, the nick-name 'Brunner', which has been given to these mortars, shows how far this popularity has progressed. One cannot be astonished that a shot which hurls with accuracy a weight of eight hundred pounds over a space of a German mile to its goal causes an atmospheric pressure which for miles around hurls everything into the air. Reports have shown that the projectile, after it has left the mortar, causes a great noise only by cutting through the air."

## ARE BARRED FROM JAIL TAX AUTOS, NOT GASOLINE

Mr. and Mrs. Siewert Forbidden to Hold Sunday Services.

Was Authorized By County Board to Superintend School. Bank Capital Also May Escape Under New Law.

Sheriff John R. Melning has placed a ban on Sunday services at the county jail, at least so far as it concerns Mr. and Mrs. A. B. Siewert, who have had active charge of the Sunday observance among the prisoners for the last few months.

The same ban will apply to Mrs. Siewert in connection with the work of conducting a day school for the prisoners. In a statement to The Herald today she declared that she had received orders from the sheriff that she could not have access to the jail corridors where it has been customary to conduct the school.

In view of the fact that Mrs. Siewert was authorized by the county board to superintend the school at the county jail several months ago, she stated today that she would have the matter before the county commission at their meeting next week and ascertain if the sheriff was overstepping his authority when he excluded her from the jail. Mrs. Siewert has been acting only as superintendent of the school. Mrs. George Davis is employed by the county board as a teacher for the school. She has not been admitted to the jail.

The action on the part of the sheriff in excluding Mrs. Siewert from the jail corridors, when she was accustomed to conduct Sunday services and superintend the school is believed to be an overstepping of his authority, which was investigated by Sheriff Melning, charging him with having presented false claims to the county board for the board of prisoners at the county jail.

Washington, Sept. 30.—Reduction of the proposed tax of \$2 a thousand on bank capital and surplus is contemplated by Democrats of the senate finance committee, who are now deliberating on the war revenue bill which passed the house last week. The suggestion has been made that disturbed financial conditions due to the European war and revision of the currency laws make it unwise to levy so heavily on bank capital at this time, and it has been proposed to cut the assessment in half.

**Would Tax Autos.**  
Those who favor this action in view of protests that are pouring in from bankers all over the country, would provide for the loss in revenue thus occasioned by an automobile tax, to be substituted for the tax of 2 cents a gallon on gasoline now provided in the bill. An automobile tax based on horsepower, it is said, would yield an enormous revenue, enough to make up for the estimated \$20,000,000 which would be derived from the gasoline tax and the amount to be lost if the bank capital levy should be reduced one-half.

The senate committee also is considering readjusting the proposed tax on insurance, and the proposed elimination altogether of a tax on accident insurance.

The committee decided not to grant hearings on the bill but it will give heed to all written communications. Chairman Simmons said he hoped to have the measure ready for a report to the senate before the end of the week.

## DIVIDEND ACTIONS NOT UNFAVORABLE.

Action in dividends last week was on the whole favorable in view of the fact that dividend reductions and omissions have become so common as a result of present business and financial conditions, comments the Wall Street Journal.

About fifty corporations held meetings and all but nine declared their regular dividends. The most important cut was by Anaconda, which declared a 25-cent dividend as against the previous rate of 75 cents quarterly. United States Smelting, Refining & Mining declared a 15-cent dividend on its quarterly dividend of 1 1/2 per cent on the common stock.

The list of companies which have reduced payments to stockholders now includes nearly all the larger ones, note bookkeepers being Utah Copper and Tennessee Copper which recently declared at their regular rates. Amalgamated Copper directors do not need to take action until the middle of October.

Four public utility companies took unfavorable action. Western Ohio railway declared. Puget Sound Traction, Light & Power deferred its quarterly dividend of 1 1/2 per cent on the preferred. Aurora, Elgin & Chicago passed the common dividend of 5 per cent quarterly.

American Shipbuilding and Ames, Holden & McCready passed the quarterly dividend of 1 1/2 per cent on their preferred stocks. Interlake Steamship reduced its quarterly dividend from 2 per cent to 1 1/2 per cent.

## SEES GERMAN FORCE IN GREATEST PERIL

Times Writer's Analysis of Sept. 25's Released.

London, Sept. 30.—The Times has received a dispatch from its Paris correspondent dated Sept. 25 and delayed by the censor. It analyzes the positions in the battle of the Aisne and the terrible fighting which took place in the valley of the Somme. The correspondent says: "Movements hitherto concealed or vaguely hinted at are now unveiled, and the frontal attack of the allies on the German position between Oise and the Argonne now sinks into the open. One thing is certain, and that is that the German armies are in a position of the gravest danger. The allies have succeeded, in a masterly fashion, in threatening the German front."

## WON IN NEW YORK'S FIRST PRIMARY

MARTIN GLYNN, Democrat, for Governor.

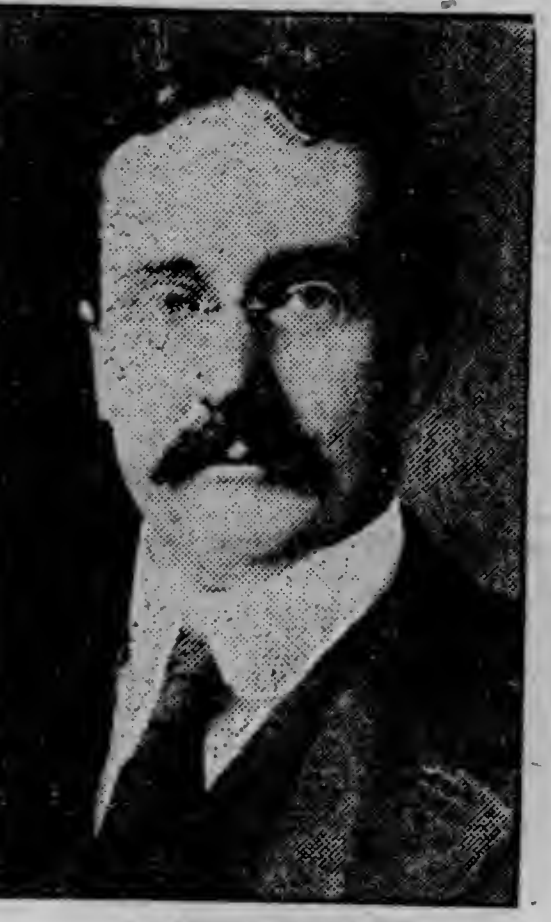

C. F. WHITMAN, Republican, for Governor.

F. M. DAVENPORT, Progressive, for Governor.

JAMES W. WADSWORTH, JR., Republican, for Senator.

JAMES GERARD, Democrat, for Senator.

EVERETT COLBY, Progressive, for Senator.

New York, Sept. 30.—With 252 electoral districts yet to be heard from out of 513 outside of Greater New York, James W. Wadsworth, Jr., was leading this afternoon in the three-cornered primary fight for the Republican nomination for United States senator. Wadsworth's nearest opponent, William M. Calder, probably will be between 60,000 and 75,000. It is believed that Gerard's plurality for senator will exceed 75,000.

A persistent report is current that Henry was made an independent race for governor despite his defeat by Governor Glynn. Henry has been beaten by approximately 3,000 votes in his fight for the nomination for governor.

In threatening both flanks of the enemy simultaneously, and he is compelled to fight for his life.

"He may succeed in extricating his force intact, for he is still formidable in every way. To save himself, however, he can hardly maintain his center upon his present position. If he is unable to do this he is beaten, and it will be only the wreck of his forces which will then reach the German frontier."

## ALMOST SET ON FIRE BY GERMANS' SHELLS

Fierce Fighting Reported All Along Line in Belgium.

London, Sept. 30.—A Central News dispatch from Antwerp says: "The Germans again bombarded Antwerp and set the town afire. Fierce fighting is raging at various points along the whole line."

## BRITISH GO SMILING TO CERTAIN DEATH

Gunnery Fall and Are Replaced By More With Same Result.

London, Sept. 30.—A Reuter dispatch from Paris says: "Thirty gunners of a British field battery had fallen, killed or wounded. Knowing that they were going to almost certain death, they called out 'Goodbye, fellows,' to their comrades in the reserve line. Two minutes later the men were out of action."

"Thirty more went to the front with the same fate. They were falling thickly behind the battery and killed or wounded every man serving the guns."

"Eventually the persistence and ac-

curacy of the British fire proved effective and the British infantry advanced and took the opposing position at the point of the bayonet.

The most important movement along the whole western wing Tuesday, enabling the allies to hold their own against the German offensive. The Germans were attempting to break through."

## ANGLO-JAPANESE COMPACT IS DENIED

British Embassy Says Story Was Planned Long Ago.

Washington, Sept. 30.—Official and diplomatic quarters united today in discrediting a published report of a secret Anglo-Japanese agreement under which Japan was to have a free hand in China, was to be permitted to send Japanese immigrants to all parts of the British empire, which would include Canada and Australia, and was to have a British loan of \$200,000,000, while Japanese troops were to assist in putting down disaffection in British India.

At the British embassy it was stated that official warning had been sent to the Heves agency, the Serbian troops have taken the offensive. This was the first time that the report would be officially reported as having been evacuated by them for strategic purposes.

## SEMLIN RETAKEN BY THE SERVIANS.

Paris, Sept. 30.—After a sanguinary combat, says a Belgrade dispatch to the Heves agency, the Serbian troops have retaken Semlin in Slavonia. This was the first time that the report would be officially reported as having been evacuated by them for strategic purposes.

H. W. Kelly, an officer of the Indian Antarctic expedition will be the establishment of a meteorological station to give warnings of the onset of the severe storms which sweep far South from the sea.

## APOSTLE OF GOOD TIMES

F. Colburn Pinkham, Manager of National Retail Association, Here.

Believes Business Is on Its Feet and About to Boom.

F. Colburn Pinkham, manager of the National Retail Dry Goods association, is one of the most optimistic men who have ever visited this city. Today at the Commercial club Mr. Pinkham addressed some of the business men of the city, and later he gave to The Herald an interview that fairly radiated optimism, said Mr. Pinkham:

"Lenders of the industry of this country such as Carnegie, George W. Perkins, the Guggenheims and others are of the opinion that business is already on its feet and will show a remarkable increase in volume when the readjustments necessary to the changed conditions brought on by the war, have been made."

"In the retail dry goods world, we have to fight for our business—but it is there. The business is already on its feet and will show a remarkable increase in volume when the readjustments necessary to the changed conditions brought on by the war, have been made."

"We have been hoarding so long that there is a large amount of money going to be put into the market. Orders for steel products are shortly going to increase. Many of the roads in this country have put off the ordering of rails as long as possible. Should passenger and freight rates be increased, it is certain that the railroad will enter upon a period of broad expansion."

**Would Increase Rates.**  
Mind now, many of the shippers of this country hope that the railroad will get an increase in freight rates. I believe that no increase will be granted unless it is fair. President Wilson entered the White House with the view of abolishing the tariff. He has committed some of the big men of the country upon lines of big business, and he believes that the tariff is a hindrance to the great business of the country. President Wilson is both fair, broad, practical, and one that includes all of the big issues of our complex commercial and business situation.

"Big business has informed me that an increase in freight rates would enable the railroad companies to go ahead with a large amount of needed improvements. This country has gone through a long and lean period of liquidation and the time is at hand for business to start the other way."

"In this country we must learn to mind our own business and forget for the time being the troubles of the rest of the world. The war in Europe is not causing any panic here. It is because natural conditions here are the best in years. All over the country we are learning to do business as usual and with readjustments nearly at the point where big business is going ahead. It is time to forget about the pointed specter of hard times. We are upon the threshold of a great and prosperous era."

## MEDICAL TESTS FOR SOLDIERS ARE GIVEN

But British Consulate Is Not Actually Enlisting Men.

Washington, Sept. 30.—Reports that the British consulate in New York was enlisting men for the army are denied by Sir Cecil Spring-Rice, British ambassador here. He declared that the consul was submitting to medical examination such English subjects as were in the city for enlistment in the army.

The ambassador pointed out that enlistment which would be in violation of the neutrality of the United States, as announced in President Wilson's proclamation, could not be carried on by any British consul.

## "AMERICA" IS SENT TO BE USED IN THE WAR

Aeroplane Had Been Designed to Fly Across the Atlantic.

New York, Sept. 30.—The mammoth aeroplane America, with which Lieut. Porte had expected to fly across the Atlantic, was shipped to England today on the steamer Mauretania and it is said will be used by the British in the war.

The America is said to be the most powerful aeroplane in the world.

## NORTH DAKOTA BOY WHIRLED TO DEATH.

Mandan, N. D., Sept. 30.—While playing about the machinery of the Equity elevator at Eden, N. D., Kenneth, the 4-year-old son of N. E. Shobe, of that place, was whirled to death by the power shaft and whirled to death. The boy's 6-year-old sister, who was with him, was also injured and may die.

**To Fill Old Mines With Ashes.**  
Philadelphia Bulletin: Scranton has struck upon a plan which, it is believed, will solve two of the most difficult problems that have faced the city for years. Several abandoned mine workings have caved in recently near the city, causing damage to property and endangering the safety of persons living near them. It is the intention of the officials to fill the old workings with ashes collected from the city, and by making the surface about the city safe and solving the ash disposal problem at the same time.

In a paper at the snow removal conference in city hall J. C. Hayes, director of public works of Scranton, devoted for the first time to the subject under discussion to tell of the new plans. He said: "To eliminate entirely the possibility of surface disturbances and subsidence in Scranton many plans have been tried and all have failed. Commissioners have been appointed and attempts made to have the mine laws changed so as to hold the mining companies responsible for damage done to the surface, but without success. At the present time, however, we are contemplating the flushing of 75,000 tons of ash to the surface. This will be done by the use of the old mine workings, under hydraulic pressure, and the ash will be used to fill the old workings, under hydraulic pressure. If our plan is a success, the near future will have the surface of Scranton as safe as any city in the country."

One of the objects of an Australian Antarctic expedition will be the establishment of a meteorological station to give warnings of the onset of the severe storms which sweep far South from the sea.

## GOODNIGHT, SHAKESPEARE!

Henry Arthur Jones, English Playwright, Says Bard's Stage Leadership Is Waning Because There Is Nobody Capable of Acting His Plays.

Kansas City Star: There were 133 Shakespearean productions in New York last season. William Faversham, Forbes-Robertson, Marlowe and Southern and Margaret Anglin all have received various Shakespearean plays, and despite this activity Henry Arthur Jones, the famous English playwright who visited in New York, believes the hold of Shakespeare on the English speaking stage is likely to grow less and less.

This will not be due so much to the plays themselves as to the players; for there are few actors on the stage today who know how to read blank verse intelligently.

I have given my opinion on recent Shakespearean productions in England, said Mr. Jones, "and it seems to me before we can give a representation of any of the great English plays, we must recover the art of speaking blank verse, and also, I believe we have to find a new convention of Shakespeare."

"The Irving convention of elaborate realistic scenery and crowd and processions seems to have worn out, and if Shakespeare is to recover his hold on the English speaking stage, we must start by getting our actors again to learn to speak blank verse, and by getting our managers to have a simple convention, one more approaching that of the old."

**Must Be Greatly Acted.**  
"If we should have great actors reading blank verse, it would tend to draw the public. Shakespeare's great plays are only popular when they are acted. One reason why Shakespeare is losing his hold is that he is not acted in the great classic manner. It is only when he is so acted that he is seen to advantage."

Forbes-Robertson, when asked if the great English actor measured up to his standards of delivery, "has a most beautiful voice. I have heard him alluded to as the last English Shakespearean actor to speak blank verse."

As to American actors, Mr. Jones said that he liked most of them that are good. There are good and bad actors on both sides of the Atlantic, and the bad American player is worse than the English "ham," while the better actors of America are more clearly, he believes, the voice is higher and clearer, but not so musical as that of the Britisher.

**Has Hopes for the Drama.**  
The loss of interest in Shakespeare does not necessarily mean that the English drama is going to the dogs, the dramatist assures us. On the other hand, he is quite hopeful about it.

If it is not pessimism, the future of the English drama, I am hopeful, on the whole, but I would like to see the English drama, and in all the other large cities of America and England, reports that there is a succession of the best works can be

## IRELAND A PARADISE FOR THE TRAMP

The People Generous and the Constabulary Most Considerate of a Wanderer's Well Being.

Harry Payne in London Answers: I believe that I have discovered the "tramp" paradise—a great island of miles in Ireland during the last few months and frequenting a great number of the resorts of the professional tramp. I have been in castles, wards and common lodging houses in the north and south of Ireland, and have met scores of tramps who are tramping in both places who could not be induced to change their mode of living for any consideration.

For the lot of the average tramp in Ireland is pleasant all the year round. In the first place, he finds it a fairly easy matter to beg his "shove" or "sufficiency" for the day—the poorest districts. The Irish people are generous and considerate of a tramp, and as far as it lies in their power to do so, they are at all times willing to help him.

**Ireland's Generous Police.**  
The tramp in Ireland never so much better catered for than his brother in England and Wales by the police. Why, over here, a tramp is asked to lie on, with an abundance of clean bedclothes, and you are not asked to rise until 8 o'clock in the morning.

And then, the work! It is mere child's play to some of the tasks imposed in English "spikes."

The officials in these places don't search you as do the officials in the English and Welsh "spikes." You can smoke your pipe, tobacco and matches into the tramp ward with you, and when all is quiet, smoke to your heart's content.

One very wild Saturday night I found myself stranded in the city of Belfast without money, shelter or friends.

At about 2 o'clock on the Sunday morning I was accosted by a member of the Royal Irish Constabulary, who expressed a desire to know what I was doing but at the same time he was in the pouring rain.

I explained briefly but concisely, and he was most sympathetic.

"How long is it since you had some grub?" I informed him quite truthfully that I could scarcely remember, it seemed so long ago.

"I'm going off duty now," he said. "Come with him to the barracks, and was soon doing justice to a hearty meal and bed, and was off to bed with hot coffee."

**By Killarney's Lakes.**  
Another occasion on which I experienced the kindness of the police was during a brief visit to Bray, the Irish Brighton—a charming seaside resort twelve miles out of Dublin. It was a case of boots this time, and I wanted a pair badly.

I had no money to buy either a new or second hand pair, so I resolved to sally forth into the town in quest of some pair with a large heart, a big foot and a spare pair of boots. And on my way downtown I passed the local police barracks.

To a burly constable I explained what I wanted and to my astonishment, I got my boots. I'm wearing them now, and I don't notice they'll last me a few months yet.

I am anticipating a right royal time in the neighborhood of Killarney this coming summer. Lodgings won't

## AMERICANS EAT LESS MEAT.

New York Tribune: Federal inspection of meat does not prevent a large number of diseased animals from being marketed, according to Dr. John A. Mohler, in an address at an address meeting at the Academy of Medicine. Dr. Mohler is chief of the pathological division in the bureau of animal industry of the department of agriculture.

"Most of the meat that is passed by the inspectors," said the speaker, "comes from animals that are suffering from some disease or other. This does not mean, however, that the meat itself is diseased, because the disease may be localized."

Dr. Mohler also said that the consumption of meat in the United States had fallen off in recent years twelve pounds per capita. He pointed out that this country was not producing cattle, a shortage of 18,000,000 head having occurred last year. In the past we had been exporters of meat, we had now become importers.

**Not Arrested, But Fined.**  
Albert Rue, fined in police court yesterday for assaulting Bernard Holm, wishes to deny that he was arrested. Mr. Rue declares that he went to police court voluntarily and pleaded guilty and paid his fine.

**Two Frazed Checks Cashed.**  
The California Wine house cashed a check for \$30, and Stack & Co. one for \$50, which bore the signature of William C. Sargent, local realty dealer. They were drawn on the First National bank and were made payable to John M. Rohr. The signatures are said to be a crude counterfeit. The checks were dated Saturday and cashed Monday.

**Charged With Trespass.**  
Edward J. Young, 17 years old, was arrested yesterday afternoon by a special railroad policeman on a charge of trespass. It was reported that he had been sweeping the streets from box cars. He pleaded guilty, but the case was continued until tomorrow for disposition.

**Charged With Inhumanity.**  
Morris Lovell, a West Duluth teacher, was arrested this morning on a warrant sworn out by Godfrey Elinan, charging him with having abused one of a team of horses he was driving Monday. He pleaded not guilty and his trial was set for tomorrow afternoon. He was released on his own recognizance.

**Hit By An Auto.**  
Conrad Mies, a roomer at the Denver lodging house, was struck last evening by an automobile driven by E. A. Lindberg of 1428 Jefferson street, as he was crossing the street at Sixth avenue west and Superior street, according to a report made to the police. He was not seriously injured.

**Patrol and Auto Collide.**  
The automobile of Sgt. Bergquist, 1931 West Fourth street, struck with the 12-year-old son of a local policeman, driven by Patrolman Englund, at First avenue and Superior street last evening. Bergquist was traveling along Superior street while the police car was going up First avenue. Neither machine was seriously damaged.

**Travels Will Assume Position.**  
James E. Palmer, who is expected to Gustaf Bergquist as receiver in the United States land office at Duluth, will assume the duties of his new office tomorrow. Mr. Bergquist has been in charge of the office for the last four years.

**His Liberty Was Brief.**  
Sam Rucker, believed to be insane, didn't remain long at liberty after he escaped from St. Luke's hospital about 7 o'clock this morning. About twenty minutes after he had left he was seen downtown by a deputy sheriff who recognized him and returned him to the hospital, according to the report at police headquarters.

# WHEAT AGAIN SELLS DOWN

Market Is Weak on Light Export Demand and Liberal Offerings.

Flaxseed Sags, With Limited Crushers' Inquiry and Selling Pressure.

Duluth Board of Trade, Sept. 30.—

The market was slightly firmer at the close. September wheat closed 1/2c off; October, 1/2c off; November, 1/2c off; December, 1/2c off.

Oats closed 1/2c up at 44 1/2c for the track; rye closed 1/2c off at 56 1/2c for the track; barley closed 1/2c off at 48 1/2c.

At Minneapolis, October closed 1/2c off at 48 1/2c; November, 1/2c off at 48 1/2c; December, 1/2c off at 48 1/2c.

Flaxseed closed 1/2c off at 1.09 1/2c; rye closed 1/2c off at 1.09 1/2c.

The wheat market sagged throughout today's session on considerable selling pressure and an inclination appearing on the part of some of the big operators to allow quotations to seek lower levels.

The situation there was weak, attributable to liberal offerings from the Canadian Northwest and America, and to the trade being fairly well supplied with stocks for the time being.

Reported business quiet at the seaboard, but some grain was picked up at Chicago for foreign account, and trade was reported to have been worked locally. It was noticeable that fair buying appeared on the low spots, and after the opening break the declines were only fractional.

Consensus at Buffalo is growing worse. More than 4,000,000 bu of grain were reported there today being reported, and the houses there are practically all filled up. While the car service is good, export orders were poor there today.

Receipts at Duluth and Minneapolis elevators are now making close comparisons with last year, but a substantial falling off has come about since last week. Reports from country elevators are to the effect that farmers' deliveries are declining and that they are expected to be lighter during the next couple of weeks, as the weather is turning their attention to plowing.

An increasing inclination to hold stocks still on the farm is also being shown. A substantial decrease has come about in deliveries at Winnipeg of late, receipts up there today being reported at 938 cars against 1,337 last year. The movement of bonded grain to Duluth is in fair proportion, 60 cars, including 46 of wheat, being reported today.

September wheat opened 1/2c off at 1.06 1/2c, and gained 1/2c to the final hour. December opened 1/2c off at 1.08 1/2c, and weakened 1/2c more. May opened 1/2c off at 1.13 1/2c and declined 1/2c more.

Flaxseed was weak on light export demand and liberal offerings. September flax opened 1/2c off at 1.09 1/2c, and weakened 1/2c more. May opened 1/2c off at 1.13 1/2c and declined 1/2c more.

Sharp weakness developed in flaxseed. After showing firmness at the opening, the market appeared, resulting in substantial declines. Crushers are expected to be fairly well supplied for the time being, and the market is subject to severe breaks in the event of any earnest selling pressure.

Final quotations showed declines of 1/2c in the day. September wheat closed 1/2c off at 1.06 1/2c, nominal. October opened unchanged at 1.08 1/2c and closed 1/2c off at 1.08 1/2c. November opened unchanged at 1.10 1/2c and closed 1/2c off at 1.10 1/2c. December opened unchanged at 1.12 1/2c and closed 1/2c off at 1.12 1/2c.

Flaxseed closed 1/2c off at 1.09 1/2c, nominal. October opened unchanged at 1.11 1/2c and closed 1/2c off at 1.11 1/2c. November opened unchanged at 1.13 1/2c and closed 1/2c off at 1.13 1/2c. December opened unchanged at 1.15 1/2c and closed 1/2c off at 1.15 1/2c.

# The Golden Rule Is a Good Rule I for the Dealer to Follow. Try It.

**WHEN a dealer orders** goods from his jobber by mail or through the jobber's representative, he expects the jobber to send the identical article or articles ordered.

**SHOULD the jobber send** a "Just as Good," the dealer would quickly return the substitute to the substitute, and would more than likely get another jobber to fill his future orders.

**THE dealer is right in in-** sisting on getting what he asks for, and, of course, would be justified in changing jobbers.
